SERVING THROUGH SCIENCE

When feet need staying power...

CROSS-COURT OXFORD has famous Keds Cushion Arch ...and speed soles. A stout fella for all sports wear.

Champs wear Keds!

Sure, light footwork—strong, untiring legwork—often depend on the shoe that keeps arch muscles in balance—KEDS.

The Keds built-in Cushion Arch, famous for years—moves *with* the foot in action, gives constant gentle support no matter how the foot turns and twists.

Sturdy traction soles—non-marking—help fast starts, quick stops, while absorbing strain. The clever Keds slanted top and seam-smooth insides do away with binding, chafing. In every way Keds help your side win on its feet!

Only Keds Have All *These Features:*

- Scientific Last, allows full toe play
- Slanted two-piece tops; no binding
- Smooth inside construction
- Balanced toughness throughout
- Traction soles; non-marking
- Pull-proof eyelets
- Wash clean with soap and water

They're not Keds unless the name Keds appears on the shoe.

U.S. Keds

INDEX TO DIRECTORY 560

BOARD OF DIRECTORS

President, Vaughn S. Blanchard, 467 West Hancock Avenue, Detroit, Mich.
President-Elect, Ruth Evans, Public School System, Springfield, Massachusetts.
Past President, Helen Manley, Public Schools, University City, Missouri.
Vice President, Health Education, Arthur H Steinhaus, George Williams College, Chicago 15, Illinois.
Vice President, Physical Education, Louis Keller, University of Minnesota, Minneapolis.
Vice President, Recreation, Caswell Miles, State Education Department, Albany 1, New York.
Central District: Carl L. Nordly.
Eastern District: George W. Ayars.
Midwest District: Iris Boulton.
Northwest District: Clair V. Langton.
Southern District: Thomas E. McDonough.
Southwest District: Eleanor Metheny.

Additional Members of Representative Assembly

SECTIONS OF HEALTH EDUCATION DIVISION

Dental Health: Hugo M. Kulstad.
Safety Education: Minerva J. Wootton
Health Instruction: Bernice Moss
Mental Health: Vincent DiGiovanna
School Nursing: (No election)
Nutrition Education: Alice Smith
School Physician: Louis R. Burnett
Therapeutics: Ellen Kelly

SECTIONS OF PHYSICAL EDUCATION DIVISION

College and University Physical Education for Men: John Shaw.
College and University Physical Education for Women: Mary McKee.
Dance: Dudley Ashton.
Intramural Athletics: John Van Why
Men's Athletics: P. C. Cobb
Private School Physical Education: George R. Staten.
Public School Physical Education: John S. Ludham.
Women's Athletics: Alfreda Mosscrop.

SECTIONS OF RECREATION DIVISION

Camping and Outing: (No election held)
College Recreation: John Scannell.
Industrial Recreation: (No election held)
Institutional Recreation: (No election held).
Municipal Recreation: (No report).
Park Recreation: (No election held)
Private Recreation: Harry D. Edgren.
School Recreation: Ruth Abernathy.

GENERAL SECTIONS

City Directors: Pattric Ruth O'Keefe.
Measurements and Evaluation: Esther French.
Professional and Public Relations: Howard Danford.
Professional Education: Ralph Piper.
Research: Thomas K. Cureton, Jr.
Student: Jane White.

UNOFFICIAL

Aquatic: Jack Torney.
Elementary Physical Education: Edwina Jones.

DISTRICT ASSOCIATION PRESIDENTS

Central: Elizabeth Graybeal.
Eastern: Clifford L. Brownell.
Midwest: Leon G. Kranz.
Northwest: Dorothea Lensch.
Southern: Joy W. Kistler.
Southwest: Verne Landreth.

STATE REPRESENTATIVES

(Central District)

Colorado (2)): Maisie Hoyt; Willard N. Greim.
Iowa (2): Theresa Anderson; Roy Moore.
Kansas (2): L. P. Washburn; Edna McCullough.
Minnesota (2): P. J. Sandell; Mabel J. Shirley.
Missouri (3): Muriel M. Lomax; Helen Fahey; Donald Ingerson.
Nebraska (1): Ed Higginbotham.
North Dakota (1): E. J. Cassell.
South Dakota (1): Irv Nelson.
Wyoming (0): None.

(Eastern District)

Connecticut (2): Joseph V. Burns; Josephine Rogers.
Delaware (1): George W. Ayars.
District of Columbia (2): Julian N. Colangelo; Virginia Dennis.
Maine (1): Howard G. Richardson.
Maryland (1): Thomas C. Ferguson.
Massachusetts (3): Robert Berry; Lawrence E. Briggs; Daniel Kelly.
New Hampshire (0): None.
New Jersey (3): Margaret Millar; Herbert A. Stine; Margaret C. Brown.
New York (5): Ellis Champlin; Ethel Kloberg; Frank S. Lloyd; Francis J. Moench; Carroll H. Smith.
Pennsylvania (4): C. H. Schuler; William A. Palmer; Wilfred C. Collins; E. H. Nelson.
Rhode Island (1): Martha Jones.
Vermont (1): Howard Douglas.

(Midwest District)

Illinois (5): Ray Duncan; Ruth Lins; Norman Ziebell; Bess Specht; Ross Anderson.
Indiana (2): Carolyn W. Bookwalter; Mark C. Wakefield.
Michigan (2): Dorothy J. Parker; Augusta Harris.
Ohio (4): Paul Landis; Grace B. Daviess; Edwina Jones; George Kozak.
West Virginia (2): Patrick A. Tork; Sara Cree.
Wisconsin (2): George Wolf; Clifford Fagan.

(Northwest District)

Idaho (0): None.
Montana (1): Charles F. Hertler.
Oregon (2): Ray Hendrickson; Dorotha M. Massey.
Washington (2): Kathro Kidwell; Jess Puckett.

(Southern District)

Alabama (2): Louise E. Levy; Jessie R. Garrison.
Arkansas (1): Paul McFarran.
Florida (1): Grace Fox.
Georgia (2): Thomas E. McDonough; Gertrude Manchester.
Kentucky (1): Elizabeth Ferver.
Louisiana (2): J. W. Kistler; Simon A. McNeely.
Mississippi (1): Russell Lyons.
North Carolina (2): Charles E. Spencer; Pete Mullis.
Oklahoma (1): Earl Sullens.
South Carolina (1): Lucille Bowers.
Tennessee (1): Emmett Strickland.
Texas (2): J. S. Nicoll; Bonnie Cotteral.
Virginia (2): Eliot V. Graves; Kirk Montague.

(Southwest District)

Arizona (1): John L. Barringer.
California (4): Anna Espenschade; Howard Bell; Verne Landreth; Genevie Dexter.
Nevada (0): None.
New Mexico (1): Caskey Settle.
Utah (1): Sheilah Woodland.

AFFILIATED ORGANIZATIONS

American Academy of Physical Education: C. H. McCloy.

THE JOURNAL OF HEALTH AND PHYSICAL EDUCATION. Official journal of the American Association for Health, Physical Education, and Recreation, 1201 Sixteenth Street, Northwest, Washington, D. C. Published monthly from September to June (10 issues). Subscriptions start only in Jan., Apr., Oct. Editorial Office: 1201 16th St., N.W., Washington 6, D. C. Five weeks' notice required for change of address. Advertising Representative: H. Thayer Heaton, 415 Lexington, Murray Hill 2-1647, New York City 17. Subscription, $3.50 per year effective Oct. 1, 1947. Entered as second-class matter at the Post Office, Washington, D. C. under the act of March 3, 1879.

The contents of previous issues of THE JOURNAL can be found by consulting the Education Index in your library.

MOORE GYM SUIT *Fashions*

These superb Moore styles are designed to give your classes a truly smart appearance as well as comfortable fit. You'll agree it's time to banish forever the rag-a-muffin look that many gym classes have had in recent years. That's why we say: select a uniform Moore style that's good looking, good fitting and complimentary to the appearance and performance of your classes!

The young Moore stunners shown ab come in delightful pastels and smart dar shades, all wash-fast colors and Sanform shrunk fabrics. With many special f tures including double-stitched seams genuine non-rust Gripper fasteners. Ch any one with the assurance it will g wonderful wear, true comfort and ge ine satisfaction.

E. R. MOORE COMPAN

Recommendations from the Seattle Convention Workshops

MANY recommendations, incorporated in twenty-nine pages of typewritten reports, originated in four divisional worshops (Health Education, Physical Education, Recreation, and General) at the Seattle Convention, April 21-26, 1947.

Some of these were already incorporated in resolutions adopted by the Representative Assembly. Others were approved by the Board of Directors and/or recommended to the Representative Assembly for official adoption. Still others were referred to the new president, vice presidents, or section and committee chairmen. It was voted to publicize many of the recommendations in whatever ways were possible. The lack of time between the workshop sessions and the meeting of the Representative Assembly prohibited intensive consideration by the Board of Directors of all of the recommendations or rewriting of those on which there was agreement on the general intent but which needed clarification. All recommendations were submitted after the convention to the four chairmen of the respective workshops for editorial suggestions. The final recommendations are presented below with the action of the Board of Directors indicated in parentheses after each recommendation.

I. General Division

(*Chairman:* Vaughn S. Blanchard)

1. Inter-relationships Between Program Areas

We recommend that our National Association give immediate and serious attention to the formulation of a statement of philosophy. This statement should clarify the fields of operation and the methods of serving mankind which are common to the areas of health education, physical education, and recreation. This should serve the purpose of extending our own professional unity and of better clarifying our relations to other professions which share our objectives. (Referred to the President.)

2. Committee Appointments

Be it resolved that the education, experience, and ability of members be evaluated to the end that more effective assignments may be made to various committees and commissions where representation of our profession is appropriate; and be it further resolved that this list be on file in the National Office. (Referred to the President.)

3. Professional and Public Relations

Be it resolved that good professional and public relations be concerned with functional cooperative relationships involving the development of good will based upon mutual understandings, and resulting in constructive action locally, nationally, and internationally (incorporated in an adopted resolution); and be it further resolved that there should be continuity of organization for professional and public relations in the American Association for Health, Physical Education, and Recreation and that this continuity be obtained by either (a) continuation of the present section on professional and public relations, provided that the chairman-elect and chairman be elected for two years each; or (b) the appointment of a standing committee and the abolishment of the section, whichever provision shall be most in harmony with structures of the Association. (Referred to the President.)

4. Extended Education

a. We recommend that our National Association increase its efforts to encourage the development of leadership in extending the program in health education, physical education, and recreation for adults.

b. We recommend that our National Association use its influence for the extension of programs of health, physical education, and recreation (through encouragement of such activities as camping, swimming, boating, youth hostel participation, etc.) for the benefit of school children in after-school hours, during weekends and during vacation periods.

c. We recommend that our National Association, in cooperation with other agencies, formulate a plan for aiding parents to conduct a program for the pre-school child, which is in accordance with his optimum development. (a, b, c incorporated in an adopted resolution.)

5. Inter-group Education

In view of the fact that health, physical education, and recreation are important to the welfare of all citizens regardless of age, race, or geographical residence, therefore, be it resolved that the AAHPER reaffirm and emphasize its democratic structure by inviting all individuals who are interested in the expansion of health, physical education, and recreation on all age levels to membership and participation in the affairs of this organization. (Incorporated in an adopted resolution.)

6. Relationships Between Research and Professional Programs

a. We recommend that our National Association request the joint committee of the AMA and the NEA to initiate the appointment of a special committee whose function it will be to develop a list of important problems in which our members and the members of the AMA can cooperate in finding a solution. This special committee should also indicate ways and means of furthering the recommended research problems and of implementing the results. (Referred to the President.)

b. We recommend that the National Research Council of the Research Section of our Association formulate and publish in order of importance a number of research problems, the solution of which would advance our profession as a whole, and that the council develop a plan for strategic attack on these research problems. (No action necessary since action had already been inaugurated.)

7. Extra Compensation for Additional Services

Interschool and intramural athletics are integral parts of the total physical education program under the supervision of physical education personnel. Such programs are usually carried on in after-school hours and are commonly over and above what is considered a normal teaching load. In order to keep physical education teachers on the same or equivalent basis as teachers of other subjects it is recommended that either additional compensation be given to the staff members carrying on these extra duties or that additional trained personnel be employed to permit a reduction in teaching load. It is further recommended that, in the determination of a normal teaching load, the class size not exceed the already recommended standard of fifty pupils. (Adopted by the Representative Assembly.)

II. Health Education Division

(*Chairman:* Frank S. Stafford)

1. Upgrading Professional Education

a. It is recommended that the AAHPER appoint a committee with appropriate representation from the Health Education Division to work cooperatively with other groups in studying and promoting an improved teacher-education program. It is recommended that this committee concern itself with the training of elementary and high school teachers, health educators in schools and colleges, and school administrators at both the pre-service and in-service levels; and it is further recommended that the committee concern itself with functionalizing the curriculum through the use of the resources of health departments and other agencies. (The committee recommended that the personnel of this group be representative of people with time and expense money to do a thorough piece of work.) (Referred to the President.)

b. It is recommended that if the AAHPER has membership in a joint committee on professional education, that the Health Education Division be represented; and it is further recommended that if such a joint committee be formed, consideration be given to the inclusion of a school administrator on the committee. (Referred to the President.)

c. It is recommended that the United States Office of Education undertake research in the field of professional education for health education. (To be publicized.)

2. First Steps in Meeting Problems in Health Education at the Elementary Level
(Grades One Through Eight)

a. *Adequate pre-service education in teacher-education institutions.*—In order to prepare the teacher to carry out a good health program in the elementary grades, the following courses should be included in the teacher-education program:

(1) Growth and Development. A coordinated course in integrating the mental, physical, and emotional development of children at each age level.

(2) Sociology. An understanding of our changing society and an appreciation of our cultural patterns and heritage, so that we may meet the needs of the child intelligently.

(3) Personal Living. A course in physical, mental, social, and emotional hygiene, including preparation for family life education and the development and maintenance of happy relationships between the teacher and pupil, parent, fellow teacher, administrator, and the balance of the school staff.

(4) The Role of the Teacher in the Health Program. The course should include health guidance procedures, healthful environment, sanitation, cooperation with health services, screening procedures, safety education program, use of audiovisual materials, and use of health record cards. (Adopted by the Representative Assembly.)

b. *In-service training.*—Local and state departments of education and/or teacher-education institutions should take the leadership in offering types of in-service education in health, such as workshops, institutes, faculty meetings, bulletins, teacher-nurse conferences, teacher-supervisor conferences, demonstration rooms or centers, extension courses, and summer sessions. Provisions should be made for the teachers to attend. (Approved by the Board of Directors and to be publicized.)

c. *Classroom teachers and special teachers.*—A more adequate number of classroom teachers, alert to their health responsibilities, should be provided rather than special teachers whose interests are limited to one field. (Approved by Board of Directors subject to editorial changes to state more adequately the implied interest.)

d. *Student participation in the elementary school health program.*—In each school there should be a student health committee composed of a representative from every class, which would be a subcommittee of the student governing council. It should be the responsibility of the school to provide the opportunity for these representatives to participate in the planning, direction, and execution of a good school health program. The duty of the student health committee would be to assume responsibility for the attaining and maintaining of a safe and healthful school environment, according to national standards on child health needs. The school should have representation on the community health council. (Referred to the Vice President of the Health Education Division.)

e. *Supervision.*—The principal who is responsible for his total school health program should be encouraged to recognize its importance and make provision for its supervision. (To be publicized.)

f. *Content of courses.*—There was difficulty in deciding on any recommendations regarding content since each city and state has its own setup and outline. However, there was agreement on some general principles: (1) program must meet needs of children in the specific group; (2) program should show progression so that the same material is not repeated in the same way in each grade; and (3) there should be a balance between incidental instruction and planned health work. (To be publicized.)

3. Recommendations of Section Meeting on Health Instruction and Evaluation

a. *Working definition of health instruction.*—Health instruction is a planned and organized learning program consisting of acquisition of scientific facts concerning health and disease, and participation in activities and experiences directed toward influencing favorable health attitudes, habits, and understandings. The group agreed upon these factors as being significant in the consideration of a health instruction program: (1) identify the common individual health problem areas, (2) set up general objectives, (3) determine scope or content, (4) recommend sequence, (5) recommend desirable school scheduling to permit proper sequence, and (6) evaluate results in terms of desirable objectives. (No recommendation made on this item except that it be publicized.)

b. *Adequate scheduling of health instruction on the secondary level.*—Special direct health instruction should be offered in the secondary schools in addition to the health instruction integrated and correlated with other subjects and school experiences. (Adopted by the Representative Assembly.) The following standards should apply: (1) *a minimum* of one hundred eighty periods of 45-60 minutes in length extended through grades 9-12 inclusive; (2) when the secondary schools include grades 7 through 12, a minimum of two hundred seventy periods of 45-60 minutes in length; and (3) in addition, all courses concerned with health in secondary schools should be organized so that unnecessary duplication or serious omission in content may be avoided. (Standards 1-3 recommended to be considered by the official bodies of the Association.)

c. *Scope and sequence of health instruction.*—It is the consensus of this group that there is a need for a more definite plan for scope and sequence of health instruction. It is proposed that a committee be appointed to study this matter and develop a plan which would be presented to the Health Education Division of AAHPER at the next annual meeting. (Referred to the Health Education Division.)

d. *Principles for planning a health instruction program.*—The group agreed that the following principles should be considered in planning a health instruction program:

(1) Health instruction should be required of all pupils, and should be coordinated and directed by teachers certified for such service. The instruction should form an integral part of the entire school program. The value of all health service activities should be fully utilized as educational experience.

(2) The size of classes in health instruction should be no larger than those in other academic subjects. Classrooms, as well as texts, references, charts, slides, models, moving pictures, and other instructional aids should be provided for teachers and pupils. In order that the health instruction program may be further vitalized, practical health activities should be initiated.

(3) Schools should place courses on a comparable basis with other school subjects.

(4) In those schools where health instruction is conducted primarily or wholly by physical education teachers as part of the program for health and physical education, the same standards of excellence previously described should prevail.

(5) All persons concerned with the health instruction program should cooperate fully with the health service personnel, with the home, and with community agencies interested in public health education.

(6) In every school and every school system there should be

a person in general charge of the entire health program. This person should be fully prepared by training and experience to direct and coordinate the various phases of the program, and to see that none of them is neglected. An advisory committee may be found helpful by this coordinating director of school health activities. (To be publicized.)

4. Relationships Between School and Community Health Education

a. *Community planning for health education.*—Community programs of health education should be planned cooperatively by representatives of the various organizations concerned with health, and should be based on the needs of the local community. Community councils concerned with health activities should serve as advisory and not as administrative bodies. The experience of planning together is recognized to be an important democratic process.

b. *Participation of professional and lay workers in the school program:*

(1) The scope and nature of health activities in the school in which professional and lay non-school personnel participate should be planned cooperatively with school personnel by the individuals involved or by official representatives of groups which participate in such activities.

(2) In-service education should be provided for both lay and professional health workers in order to improve the quality of their participation in school health activities. Such education should be made available as an integral part of the total plan of participation.

c. *Participation of school personnel in community health activities.*—School administrators, teachers, and other school personnel should have an opportunity to participate in community health activities and efforts should be made to establish policies and programs which permit and encourage such participation.

d. *Home-school cooperation.*—Every effort should be made to extend the opportunities for cooperative planning by parents, teachers, nurses, and other interested persons for the improved health and welfare of each child.

e. *Utilization of community situations and experiences for health education.*—School children and community groups alike should have opportunities to participate in a functional health education program based on active participation in studies of community needs and on experiences in observation and conduct of community and school health activities. (To be publicized.)

III. Physical Education Division

(*Chairman:* Ruth Evans)

1. Professional Education

a. It is recommended that a working conference on professional education be held at the earliest possible moment to establish standards and a national plan of rating of institutions or departments offering teacher education in physical education. (Referred to the President.) In regard to standards, there were definite recommendations as to hours, directed practice in teaching, staff, curriculum pre-graduate requirements, and the extension of professional education both as to years and types of experience.

b. It is recommended to the Board of Directors that the work of the Committee on Professional Education be integrated with a program of action on the part of the Professional Education Section with the assigned responsibility to promote a continual re-evaluation with emphasis upon (1) research with integration between all established agencies interested in improving professional education; and (2) studies regarding selection, placement, and in-service education of teachers. (Referred to the Professional Education Section.)

c. It is recommended that there be a re-emphasis on teacher education in and for the elementary field. (Adopted by the Representative Assembly.)

d. It is recommended that re-evaluation of state codes and requirements in physical education be a cooperative effort between state associations, state directors of physical education, and teacher-education institutions within the state. (To be publicized.)

2. College Women

a. Since it has been found that the lack of techniques to evaluate the social and emotional outcomes of our program is a primary problem, it is therefore recommended that the National Research Section initiate a comprehensive study of the research in sociology and psychology in an effort to develop ways of evaluating these aspects of our problem. (Referred to the National Research Section.)

b. It is recommended that those responsible for physical education seek the full cooperation of all other educators in their institution, to appraise, to suggest practices, and to measure the outcomes of the program in order to secure a more wholehearted understanding from others regarding our instrumentality in the total educational program and widen our horizons regarding basic problems in education. (To be publicized.)

3. College Men

a. Since the policy of excusing veterans from physical education or giving them blanket credit for military experience has been a great mistake in the war period, a policy of evaluating military physical education for equivalence should be established and limited credit should be granted accordingly. Where blanket credit or excuses have been given, the policy should be voided after September 1, 1948. In other respects the requirements for veterans should remain the same as for non-veterans. (Adopted by the Representative Assembly.)

b. In view of the needs of all college students, departments of physical education must provide leadership and facilities to supplement the programs of other campus organizations in offering opportunities for leisure-time participation in wholesome recreation of the physical type.

The college is obliged to recognize the fact that since off-campus recreational activities are frequently unwholesome and expensive, attractive opportunities for recreation should be provided within the borders of the college. College authorities should recognize this and make proper budgetary provision. (To be restudied and then publicized.)

c. Since the requests and grants of added time for physical education during the war have caused unfavorable reactions in some colleges resulting in decreased time allotment or abolition of the requirements, a careful study on each affected campus of the possibilities of re-establishing a fully developed program of physical education should be undertaken, and an earnest effort to re-establish at least the prewar level of time allotment and credit should be made. (To be publicized.)

d. To claim physical fitness as the primary objective of the program jeopardizes the status of the program in educational institutions because of the implied dichotomy. It should be held that physical fitness is a desirable outcome of activity, not the primary objective of physical education and that physical education seeks development of the whole man in all of his social, intellectual, psychological, and organic aspects. College programs, therefore, must be constructed to demonstrate their contribution to the whole man and not merely to his physical fitness. (To be publicized.)

e. Continued use of physical fitness tests as ends in themselves or without a demonstrable need for them, or without a true application of the results in furthering the educational development of young people, is an ill-advised and jeopardizing procedure. The use of appraisal tests for classification purposes so as to enhance the progressive development of students in their physical education is justifiable provided the tests appraise the qualities, skills, or knowledge which are sought in the program. (To be publicized.)

f. The continued use of activities pointed solely toward physical outcomes is a deterrent to the acceptance of an intelligent physical education program by both students and faculty. The elimination of all such purely muscle-centered activities, except in instances of individually prescribed assignments, in favor of a program of functional activities as illustrated by games, sports, tumbling, dance and self-testing activities, individualized where necessary and possible, will receive greater acceptance in American education. The program should be taught so as to capitalize fully upon its rich potential for development of desirable social skills and wholesome interests as well as organic power. (To be publicized.)

g. The continued, almost exclusive emphasis in research upon organic, "physical," or motor outcomes is a drawback to the advancement of physical education in American education. The diversion of much of our research talent into explorations of the social, psychological, and educational outcomes of controlled physical education programs will advance our cause. (To be publicized.)

4. Junior and Senior High School

a. We recommend, where no community program exists at the present time, or where the program is deemed inadequate, that schools and communities cooperate to inaugurate recreational programs; that they make use of the leadership available within the school system itself, and that full use of school facilities be made available for the school-community recreational program under the direct control of the local board of education; that this program be jointly financed by the local board of education and the local community; that consideration be given to the idea of credit allotment toward renewal of certification of teachers by practical work in this recreation program; and that teacher-education institutions investigate the possibility of giving credit to students who participate as leaders in the summer recreation program. (To be publicized.)

b. We recommend that specific consideration be given to the coordination of the school physical education program and the community recreation program. (To be publicized.)

5. Elementary Schools

a. Since the classroom teacher is, in most cases, responsible for physical education in elementary schools, we recommend that (1) elementary classroom teachers complete at least minimum requirements in professional courses in physical education; (2) provision be made for expert supervisory and consultant service in physical education at both local and state levels; and (3) functional, informal, and democratically administered in-service education with appropriate materials and visual aids be provided. (To be publicized.)

b. We recommend that the program of physical education for elementary schools be planned with consideration for other fields, broad in scope and balanced as to content, progressive within and between grades, and provide for desirable coeducational activities. (To be publicized.)

c. We endorse a daily instruction period for physical education exclusive of recess and noon periods, the length of periods to be consistent with the established length of periods in the individual school. (To be publicized.)

d. We recommend that copies of resolutions be supplied to trustees or boards of education of all schools, as they are charged with responsibilities of adopting programs and providing equipment and supplies. (To be publicized.)

e. We request the AAHPER to undertake studies relative to (1) the development of visual aids in physical education for the elementary schools; (2) the role of the elementary classroom teacher in physical education; and (3) pre-service education for supervision and teaching of physical education in elementary schools. (To be publicized.)

6. Standards of Conduct

In view of the apparent recession in the display of acceptable standards of conduct on the part of coaches, players, and spectators at interscholastic and intercollegiate athletic contests sponsored and conducted by educational institutions, all athletic coaches, physical educators, and teacher-education personnel in this field should re-emphasize the educational values of competitive athletics and take definite steps to see that those values are developed and practiced in order that the finest ideals of amateur sports may be perpetuated. (To be publicized.)

7. Competition

a. *College women.*—Be it resolved that controlled competition on all levels of ability be conducted in a spirit consistent with the broad functions of physical education and that such competition be administered by, or have the approval of departments of physical education for women in accordance with NSWA standards.

We recognize that competition is a strong motivating factor in an instructional program. It can be a final culmination of this program but should not be the sole end.

We further resolve that when open or invitational competition is contemplated, that the state, regional, and national organizations such as the National Archery Association, United States Lawn Tennis Association, United States Golf Association, American Basketball Association, National Softball Association, Amateur Athletic Union, etc., be informed of the aims of the college physical education departments for their women students. (To be publicized.)

b. *Secondary Education.*—A required well rounded physical education course and an all-inclusive program of intramurals should never be sacrificed for an interschool competitive program, and the AAHPER should study further the problem of interscholastic athletic competition and make specific recommendations. (To be publicized.)

c. *Resolution Relating To Interscholastic Competition on the Elementary School Level:*

Whereas, elementary school boys and girls are emotionally immature;

Whereas, activity for all is the desired standard rather than activity for the few;

Whereas, the interest of boys and girls is in playing the game and not in playing other schools unless artificially stimulated to do so;

Whereas, small schools may not be able to have satisfactory competition within their own small group; and

Whereas, a play or sports-day type of program broadens social horizons:

We, therefore, recommend: That activity for *all* be stressed in grades one through eight in the elementary school physical education program; that a strong intramural program be developed for grades five through eight; that interschool competition be considered only as a natural outgrowth of a full intramural program; that we go on record as definitely opposed to interscholastic competition for elementary school boys and girls. (Adopted by the Representative Assembly.)

8. Physical Reconditioning

As a result of experiences in the convalescence of battle casualties during the war, physical reconditioning was developed as a definite form of treatment. In the postwar era, these programs are being continued and improved in Army, Navy, and veterans' hospitals. Interest in this program is also developing in civilian hospitals. This program is directed toward the development and restoration of the disabled individual to his maximum physical competence and mental health.

This workshop group, representing medicine, physical therapy and physical education, makes the following recommendations pertaining to physical reconditioning:

a. Physical reconditioning should be recognized as a definite area of rehabilitation and should be given careful study by the AAHPER.

b. Terminology in relation to the contribution of physical education and recreation to rehabilitation should be studied with a view to developing accurate descriptive terms.

c. Physical reconditioning should be considered a phase of physical medicine and should be conducted only under medical supervision.

d. The activities of physical reconditioning should include the following: general body building and conditioning exercises, sports, skills and adapted sports, games, athletics, and physical recreation activities.

e. Close coordination should be established with the American Medical Association and the Congress of Physical Medicine in the development of physical reconditioning and the establishment of appropriate professional standards for physical reconditioning personnel.

f. Physical reconditioning personnel should explore the possibilities of the prevention of physical and mental deterioration and the restoration of physiological fitness and mental health through appropriate activities.

g. Special emphasis should be given to physical reconditioning activities in preschool, elementary and secondary

Preface

TO draft a sample or model state law which would be acceptable, meet all the needs, and embrace all the desirable requirements of each of the states in the Union is a difficult task. The difference in the educational setup of the various states is very great. Not only is there a wide difference in states, but great differences within states, rural and urban areas, large and small cities, towns and villages.

We believe a sample bill should be simple, yet provide adequate authority for state and local boards of education to set up and conduct proper state and local programs. Therefore, our suggested sample state law* sets desirable goals and a minimum of mandatory regulations.

Furthermore, this sample law can be used as a guide in establishing effective state legislation. Modification or amplification as may be desirable to meet the needs of the various states or localities will be necessary. Where advisable and desirable, colleges and universities may be included in the title and sections set up to cover these phases.

In state legislation it has been found that (1) it is not very effective when permissive; (2) if mandatory, it must be supported by regulatory action to make it function; (3) it is most effective when state departments of education are provided with adequate personnel to assist in its operation; (4) most progress toward effective programs of health and physical education has been made in those states which have state directors, supervision, courses of instruction, and necessary manuals; and (5) it must have scope—the programs should be clearly defined, including health services and sanitation, health and safety instruction, areas and phases of physical education, including athletics, and provision for recreational activities and opportunities for out-of-school youth and adults.

* The Board of Directors of the AAHPER has officially approved the Sample State Law by mail ballot. States are urged to study it carefully and initiate appropriate action. Reprints of the Sample State Law will be available in the national office at 10c per copy following publication of this issue.

Sample State Law

AN ACT

To provide for the organization, direction and supervision of courses in health, safety education, and physical education, and to provide for recreation, including camping, in the public elementary and secondary schools of the state.

SECTION 1

Purposes.—The purpose of this Act is to assure the organization and development of adequate programs of health, safety education, and physical education and to require the teaching of courses in these subjects to all pupils in the public elementary and secondary schools of the state. The purpose of these courses is to secure the normal development of pupils by helping them to acquire the knowledge, skills, habits, attitudes, emotional stability, social qualities, organic vigor, and such other benefits as are necessary to enable the citizenry to live wholesomely, healthfully, and abundantly. The purpose of this Act is also to provide recreation, including camping, which will supplement the development of the above qualities.

SECTION 2

Courses of Study.—Boards of education, whose duty it is to prescribe courses of study, shall develop suitable courses for health, safety education, and physical education for all pupils enrolled in the elementary and secondary schools of the state. Such courses shall be required of all pupils enrolled and shall be selected and adapted to meet the needs of pupils, including those pupils who have specific handicapping disabilities. Supplementary manuals and other teacher-aid materials which may be necessary in carrying out the purposes of this Act shall be prepared and distributed.

SECTION 3

Enforcement of Courses.—It shall be the duty of the boards of education and of principals and superintendents of schools to enforce the courses of study

which have been prescribed and to require that such courses be given in the schools under their jurisdiction. State moneys allotted to schools may be withheld by the proper authorities upon sufficient proof that the provisions of this Act are being violated.

SECTION 4

Physical Education.—Elementary Schools, grades 1 to 6 inclusive: a comprehensive instructional program shall be provided and planned progressively for all pupils to promote the learning of motor skills, to teach games and sports for recreational use, to give experiences in democratic citizenship, and to provide sufficient physical activity for normal growth and development. Time allotment—one period per day, length of period to be consistent with established length of periods in the individual school. Teacher load—one teacher for 40 children.

Secondary Schools, grades 7 to 12 inclusive: a progressive instructional program shall be developed, providing an opportunity for the promotion of vigorous normal growth through a wide range of large motor activities. Time allotment—one period per day, length of period to be consistent with the established length of periods in the individual school. Teacher load—one teacher per 50 pupils in physical education; one teacher per 35 pupils in swimming.

SECTION 5

Health and Safety Instruction.—All pupils enrolled in the schools of the state shall be required to attend daily classes of graded health and safety education in all elementary grades. The length of the period is to be consistent with the administrative policy throughout the school.

High schools shall offer, as a minimum, a one-year course of health and safety instruction daily adapted to individual needs. Health guidance and counseling are essential and must be provided as part of the instructional services. Teacher load—one teacher per 35 pupils.

SECTION 6

Health Services.—All pupils shall be required to have a thorough medical examination upon entrance into school and every three years thereafter in elementary schools and at entrance to secondary school and at least twice thereafter to the end that remediable defects and handicaps can be discovered and corrected. In addition, the health service program shall provide immunization and other communicable disease control measures necessary to prevent and control communicable disease. Pupils shall be assigned to physical education activities in accordance with the entering or subsequent physical or medical examination. Adequate medical examinations shall be provided for all athletes engaging in interscholastic athletics.

SECTION 7

Credit.—Credit shall be granted for health education and physical education on the same basis as for other courses receiving credit and required for promotion and graduation. State colleges and universities shall accept such high school credit as part of the entrance requirement, and other colleges and universities shall be urged to accept this credit as part of their entrance requirement.

SECTION 8

Recreation, Including Camping.—Indoor and outdoor recreational activities shall be provided. Opportunities and programs are to be made available twelve months of the year and are to be planned to meet the needs and interests of individuals and groups. Camps and camping facilities should be provided for recreational and instructional purposes.

SECTION 9

Duties of the State Board of Education.—It shall be the duty of the state board of education to enforce the provisions of this Act; to formulate policies and to adopt standards, rules, and regulations; to appoint a state director or supervisor of health education, physical education, and recreation, together with the necessary assistants, and determine the duties and salaries; to provide health services; to provide suggested courses of study in the fields covered by this Act; to cooperate with other state departments, such as the state board of health, etc., and private agencies; and to provide sufficient moneys in its budget for the proper support of this division and of its services.

SECTION 10

Duties of the Local Boards of Education.—It shall be the duty of the local boards of education to adopt general rules and regulations; to provide graded courses of study and such other supplementary materials as are needed for use in the schools; to provide a director, supervisors, and an adequate staff of professionally trained, fully qualified and certificated instructors to carry out the provisions of this Act; to provide adapted activities for children with structural handicaps and to employ doctors, specially trained physical therapists and nurses to conduct this phase of the program; to provide adequate indoor and outdoor facilities, equipment and instructional supplies for all-day and all-year joint school and community use; to cooperate with boards of health, other governmental authorities, and private agencies.

The board of education of any district may grant the use of the school building and facilities for public recreational purposes, providing such use does not interfere with the regular school procedures. The boards of education of any two or more districts may jointly establish a school-community recreation program. The board of education may cooperate with any other public authority or with the federal government or any department thereof to carry out a school-community recreation program.

The board of education may operate and maintain a camp or camps for recreational and instructional uses, or may cooperate with the board of any school district or the governing body of any other municipality of the state or with individuals in the operation and maintenance of such camps in any manner in which they mutually agree.

Cardinal Athletic Principles

Report of the Committee on Interscholastic Athletics

THE following statement "Cardinal Athletic Principles and Minimum Eligibility Requirements" was approved and recommended for publication by the Board of Directors of the AAHPER at the Seattle convention as a joint statement of policy on interscholastic athletics of the Association and the National Federation of State High School Athletic Associations. The Board of Directors approved also the recommendation of the committee that a permanent Joint Committee on Athletic Problems in Education of the AAHPER and the NFSHSAA be organized. The function of such a committee would be to study and appraise interscholastic athletics and to make recommendations regarding their function, organization, and administration.

The committee personnel is listed below:

Vaughn S. Blanchard, Public Schools, Detroit, Michigan, *Chairman*
Louis Burnett, University of Maryland, College Park
Esther French, Illinois State College, Normal, Illinois
Fred V. Hein, American Medical Association, 535 North Dearborn St., Chicago, Illinois
Jean Hutson, High School, Clayton, Missouri
Sam Jones, High School, Knoxville, Tennessee
Robert Kiphuth, Yale University, New Haven, Connecticut
Fred Martin, Wesleyan University, Middletown, Connecticut
Alfreda Mosscrop, Vassar College, Poughkeepsie, New York
C. A. Muhl, High School, University City, Missouri
A. H. Pritzlaff, Public Schools, Chicago, Illinois
Frank Raff, Overlake High School, Bellevue, Washington
Elsa Schneider, State Department of Education, Springfield, Illinois
David Snyder, Public Schools, Oakland, California

Cardinal Athletic Principles

Schools provide opportunity for each individual to develop himself to the limit of his capacity in the skills, appreciations, and health concepts which engender personal satisfaction and civic usefulness. A good school program includes the means for exploring many fields of activity. One such field is that which involves athletic performance. Participation in and appreciation of the skills in a sports contest is a part of enjoyable living. Ability to recognize degrees of proficiency in these skills is one important attribute of the well balanced individual. The perfectly timed and coordinated activities by which an individual, or a team, strives to achieve a definite objective is an exemplification of coordination and efficiency. A good school program provides a mixture of benevolent restrictions and freedom, of mental growth and physical development, of liberties and restraints. Developing and maintaining a physically fit nation is one of its important aims.

For developing endurance, strength, alertness, and coordination, contests and conditioning exercises have been made a part of the school program. Nature wisely insured a degree of physical development and social adjustment by endowing the individual with a desire to play. Around this desire, as a nucleus, can be built a complete program of beneficial exercises in which healthful and satisfying habits and attitudes are stressed.

To be of maximum effectiveness, the athletic program will:

1. Be closely coordinated with the general instructional program and properly articulated with the other departments of the school.
2. Be such that the number of students accommodated and the educational aims achieved justify the use of tax funds for its support and also warrant the use of other sources of income.
3. Provided, that the time and attention which is given to the collection of such funds is not such as to interfere with the efficiency of the athletic program or of any other departments of the school.
4. Confine the school athletic activity to events which are sponsored and supervised by the proper school authorities so that any exploitation or improper use of prestige built up by school teams or members of such teams may be avoided.
5. Be planned in such a way as to result in opportunity for many individuals to explore a wide variety of sports and to set reasonable season limits for each listed sport.
6. Be controlled in such a way as to avoid the elements of professionalism and commercialism which tend to grow up in connection with widely publicized "bowl" contests, barnstorming trips, and interstate or intersectional contests which require excessive travel expense or loss of school time or which are claimed to be justified by educational travel values.
7. Be kept free from the type of contest which involves a gathering of so-called "all-stars" from different schools to participate in contests which may be used as a gathering place for representatives of certain colleges or professional organizations who are interested in soliciting athletic talent for their teams.
8. Include educative exercises to reach all non-participating students and community followers of the school teams in order to insure a proper understanding and appreciation of the sports skills and of the need for adherence to principles of game ethics.
9. Encourage a balanced program of intramural activity in grades below the ninth to make it unnecessary to sponsor contests of a championship nature in these grades.

Suggested Platform for Health Education

Preface

THE Health Education Division of the AAHPER, through the cooperative efforts of its section chairmen and vice presidents during the past two years, and representatives of other national associations, has developed the following suggested platform for health education. Mr. Frank S. Stafford, U. S. Office of Education, Washington, D. C., and immediate past vice president of the Health Education Division, inherited the responsibility of appointing a committee to prepare such a platform. It was deemed advisable to ask other national associations to participate. In addition to the AAHPER the following Associations were asked to select a person to serve on this committee, and the following persons were designated:

Dr. EUNICE TYLER, University of North Carolina, Chapel Hill, representing the Public Health Education Section of the American Public Health Association.

Dr. CHARLES L. WILLIAMS, Jr, U. S. Public Health Service, Washington 25, D. C., representing the School Health Section of the American Public Health Association.

Dr. BERNICE MOSS, State Department of Education, Sacramento, Calif., representing the Society of State Directors of Health and Physical Education.

Dr. A. O. DEWEESE, Kent State University, Kent, Ohio, representing the American School Health Association.

The platform has been submitted to the organizations represented on the committee for their official endorsement and approval. It is the hope of the committee that the platforms will be endorsed at the earliest possible date by all national groups interested in health education, with the understanding that it is tentative and subject to periodic revision.

The Board of Directors of the AAHPER has officially approved the platform by mail ballot and will take every opportunity to give it publicity and support.

Objectives

Since the health of every individual is basic to his effective functioning as a member of society and to his personal happiness and success, every community should have, for all of its citizens, a total health education program.

The objectives of this program should be to improve the health behavior of every individual and to stimulate collective action, in accordance with democratic principles, to provide the community with needed health facilities and resources. Such a program would:

1. Make it possible for every person to attain the maximum health of which he is biologically and physiologically capable.

2. Help to develop mature individuals who possess the knowledge and philosophy to build not only healthier communities but a healthier world.

Platform

1. A program of health education, based upon accepted scientific facts, should be available to individuals of all ages, all races, all nationalities, and all creeds.

2. Emphasis should be placed on the functional use of scientific facts adapted to the educational level, interests, and needs of the countless natural groups in every community.

3. School health education and community health education are essential parts of a well balanced program. Neither can function with full effectiveness without the other.

4. Every community should have an organization through which all health education activities are coordinated and in which all official, voluntary, industrial, and civic groups concerned with child or adult health, and the general public can plan together and carry into action a total health education program suited to the needs of all the people.

5. Trained leadership is necessary for efficient operation of a school or a community health education program. Qualification of persons responsible for community health education programs and for elementary, secondary, college, and university health education should include professional training in health *and* education.

6. One or more qualified educators or health coordinators should be available in every health department and every school system to work with all school and community groups, and similar workers should be available in other organizations such as the voluntary agencies, agriculture, and industry.

7. Adequate medical, dental, and nursing services should be provided for all school children. The scope and administration of these services should be planned cooperatively by the official state and local agencies concerned with these programs. In the implementation of these services, particularly on the local level, there should be cooperative planning by school, public health, and other official agencies, the medical and dental professions, and non-official health agencies. The operation of these services should be coordinated with health teaching and should provide educational experiences for the child, parent, and teacher which result in changed behavior.

8. Every child should attend school in a building which is safe, sanitary, pleasant, and healthful, and should have a daily schedule which is in accord with sound health practices.

9. Advanced training in public health and education for persons especially interested in and fitted for the field of health education should be encouraged through the provision of fellowships or other financial assistance.

10. All teachers in the elementary and secondary schools should have adequate preparation in the field of

(Continued on Page 557)

Constitution and By-Laws

of the

American Association for Health, Physical Education, and Recreation

Revised April 25, 1947

Preamble

During the most formative period of their lives children in America spend a large part of their time in schools and other educational institutions. Various provisions affecting the development of children have, from time to time, become a part of the programs of these institutions. Such provisions include: health education, physical education, and recreation, for both children and teachers. To bring about a greater unity of purpose and correlation of effort among those engaged in the various aspects of this broad program, the AMERICAN ASSOCIATION FOR HEALTH, PHYSICAL EDUCATION, AND RECREATION: A DEPARTMENT OF THE NATIONAL EDUCATION ASSOCIATION is hereby formed and the following Constitution and By-Laws are adopted.

CONSTITUTION

Article I. Name

Section 1.—The organization shall be called the American Association for Health, Physical Education, and Recreation—A Department of the National Education Association.

Article II. Aims

Section 1.—The aims of the Association relate to health education, physical education, and recreation and are:

a. To awaken and promote a wide and intelligent interest.

b. To acquire and disseminate accurate information.

c. To provide such means of promotion as will secure adequate programs.

Article III. Professional Groups

Section 1.—The Association shall include professional groups organized by Districts, States, Nations, and Provinces upon the basis of geographical location, Sections, and Affiliated Organizations as hereinafter provided.

Article IV. Divisions

Section 1.—The Association shall include three Divisions as follows: Health Education; Physical Education; and Recreation.

Article V. Membership

Section 1.—The Association shall consist of members and patrons as hereinafter provided.

Article VI. Government

Section 1.—The business of the Association shall be conducted by a Board of Directors, and a Representative Assembly, each constituted as hereinafter provided.

Article VII. Honor Awards

Section 1.—Honor Awards may be given for meritorious service as provided in the By-Laws.

Article VIII. Publications

Section 1.—The official publication shall be called the *Journal of Health and Physical Education,* published and distributed as hereinafter provided.

Section 2.—The Association shall publish and distribute a *Research Quarterly* and such other materials as may be authorized by the Board of Directors as hereinafter provided.

Article IX. Amendments

Section 1.—This Constitution may be amended at any meeting of the Representative Assembly or by mail vote as hereinafter provided. An affirmative vote equivalent to two-thirds of the total membership of the Representative Assembly shall be necessary for amendment. No mail vote shall be valid beyond thirty days after official notification. Amendments shall be published not later than the third issue of the *Journal* after being passed.

BY-LAWS

Article I. Membership

Section 1.—Membership in the Association shall be designated as members, associate members, professional members, life members, student members, student professional members, honorary members, and patrons.

Section 2.—Members shall consist of all persons professionally engaged in one or more of the various aspects of health education, physical education, or recreation.

Section 3.—Associate members shall be those persons not professionally engaged in health education, physical education, or recreation, but interested in the support of these programs.

Section 4.—Professional and life members shall be the same as active members except as defined in Section 10 of this article. Life memberships shall be available to individuals but not agencies, associations or institutions.

Section 5.—Student members shall include students attending professional and teacher-education institutions preparing for health education, physical education, or recreation, and persons who have completed such training but who are not actively engaged in professional work.

Section 6.—Honorary members shall be persons outside the professions of health education, physical education, and recreation, elected to membership upon the basis of unusual interest and meritorious service in these or closely related fields. Candidates for honorary membership shall be nominated by a member of the Representative Assembly at its regular annual meeting and for election must receive the affirmative vote of three-fourths of that body, secured through mail vote. Honorary members shall receive all publications of the Association without charge.

Section 7.—Any person or organization may become a patron upon payment of $200.00 or more to the Association. Patrons shall receive all official publications without additional charge.

Section 8.—Members, associate members, professional members, life members, and student members shall be approved by the Executive Secretary-Treasurer acting upon formal application of the candidate.

Section 9.—Only members, professional members, life members, and patrons who are professionally engaged in health education, physical education, or recreation shall have the right to hold office or to vote in the election of members for the Representative Assembly as hereinafter provided.

Section 10.—The annual dues for members shall be $3.50; associate members, $3.50; professional members, $10.00; student members, $1.50; and student professional members, $3.00. The annual dues shall begin with either October, January, or April and the year designated by the candidate. The life membership may be obtained upon payment of a single fee of $160.00 or $20.00 per year for ten consecutive years. Members, associate members, and student members shall receive the official *Journal.* Professional members, life members, and patrons shall receive all publications of the Association. The publications shall be sent only to those members whose dues have been paid.

Section 11.—Only libraries and reading clubs, agencies, associations or institutions may secure the *Research Quarterly* subscription for $3.00. Only they may secure both the *Research Quarterly* and the *Journal* for $6.50.

Section 12.—Any person may be restored to membership upon payment of dues for the current year.

Article II. Representative Assembly

Section 1.—The Representative Assembly shall consist of the

Board of Directors, District Presidents, one representative from each Section and Affiliated Organization as hereinafter provided, and one representative from each state, nation, or province association having twenty-five to one hundred active, professional, and life members in the National Association; two representatives from each state, nation, or province association having one hundred-one to three hundred active, professional, and life members in the National Association; three representatives from each state, nation, or province association having three hundred-one to five hundred active, professional, and life members in the National Association; with one additional representative for each two hundred-fifty of such members above five hundred; as provided in Section 2 of this article. State, nation, or province associations with less than twenty-five active, professional, or life members may petition the Executive Secretary-Treasurer for representation in the Representative Assembly. The representatives shall have equal rights. Each representative, except representatives of Affiliated Organizations, shall have one vote. The Representative Assembly shall also include as non-voting members, the Executive Secretary-Treasurer and the Editor.

Section 2.—Members of the Representative Assembly shall be members of the National Association, and except certain members of the Board of Directors as hereinafter provided and representatives from Sections and Affiliated Organizations, shall be elected by their district, state, nation, or province associations according to district, state, nation, or province constitution and as provided in Article VII, Sections 5 and 6, of these By-Laws. Such members shall hold office until their successors are elected.

Section 3.—It shall be the duty of the Representative Assembly to effect all changes in the Constitution and By-Laws; to elect the officers, except as provided in Article V, Section 2; to initiate such business as it deems desirable; and to exercise veto power over action taken by the Board of Directors upon three-fourths' vote of those present at an official meeting, and other business as hereinafter provided.

Section 4.—The Executive Secretary-Treasurer shall keep a record of the proceedings of the Representative Assembly and shall make a report at each meeting and at the national convention. He shall notify each state, nation, or province association at least thirty days before its annual meeting of the number of persons in that state, nation, or province association who are members of the National Association. This information is to be used by the state, nation, or province association for determining the number of representatives to the Representative Assembly as provided in Section 1 of this Article and in Article VII, Sections 5 and 6.

Section 5.—An annual meeting of the Representative Assembly shall be held at the time and place of the national convention. Special meetings may be called by the President or by the written request of a majority of the Representative Assembly. The Executive Secretary-Treasurer shall notify all members of the Representative Assembly at least thirty days prior to the proposed meeting.

Section 6.—Thirty or more members of the Representative Assembly, present in person or by proxy, shall constitute a quorum for the transaction of business as provided in Section 3 of this Article.

Section 7.—Members of the Representative Assembly may vote by proxy providing the proxy is a member of the National Association. A proxy may cast votes for representatives of Sections, and for such state or district association representatives in his district who so authorize him in writing. Such authorization shall be presented to the Executive Secretary-Treasurer before the meeting convenes.

This written proxy is not transferable; it must name the specific person or persons authorized to cast the vote; and it must be signed by the member for whom the proxy is designated. Each member shall designate his own proxy and not more than two alternates, listing them in order of preference. If a proxy is issued to more than one person, it thereby becomes automatically cancelled.

Section 8.—Members of the Association may attend all Representative Assembly meetings without vote. By request of an Assembly member and upon unanimous consent of the Representative Assembly, a visitor may be allowed to address briefly the members of the Assembly.

Article III. Board of Directors

Section 1.—The Board of Directors shall consist of the President, the President-Elect, the Vice Presidents, the immediate Past President, and one representative from each of the several districts. The district representatives shall serve for three years, two being elected each year. It shall also include as a non-voting member, the Executive Secretary-Treasurer.

The Board of Directors' members may be represented by proxy as provided in Article II, Section 7. Eight or more members of the Board of Directors present in person or by proxy shall constitute a quorum for the transaction of business.

Section 2.—It shall be the duty of the Board of Directors to initiate and transact all business necessary for the conduct of the Association except as provided in Article II, Section 3.

Article IV. Officers

Section 1.—The officers shall consist of the President, the President-Elect, the Vice Presidents, the immediate Past President and the Executive Secretary-Treasurer.

Section 2.—The President-Elect shall be elected annually by the Representative Assembly at the time of the regular annual meeting. The President-Elect shall automatically succeed to the office of the President at the conclusion of the next annual meeting.

Section 3.—The President shall act as Chairman of the Representative Assembly, the Board of Directors, and the National Convention Committee as hereinbefore and hereinafter provided. He shall appoint all members of committees, both standing and president's, with the exception of the Nominating Committee as hereinafter provided. He shall appoint the Association's representatives on joint committees. Members of standing committees and joint committees shall be approved by the Board of Directors and membership on such committees shall be rotating three-year terms and two consecutive terms shall not be permitted. President's committees shall be created by the President anytime during the year and these committees shall terminate with his term of office. If the Board of Directors shall deem it necessary or advisable to continue the work of any President's committee beyond the termination date of the committee it may recommend to the President-Elect that a new President's committee be appointed to continue the work of the committee.

Section 4.—The President-Elect shall act for the President in his absence, and in case of death or resignation of the President, the President-Elect shall succeed him for the unexpired term.

Section 5.—The Executive Secretary-Treasurer shall be elected by and shall hold office subject to the vote of the Representative Assembly. The duties and remuneration of this office shall be determined by the Board of Directors. He shall be bonded for the sum of $5000 and the Assistant Secretary for $1000, the annual premiums to be paid by the Association.

Section 6.—The President shall appoint annually a certified public accountant who shall audit the books and accounts of the Executive Secretary-Treasurer. The report of said accountant shall be presented to the Board of Directors at the time of its regular annual meeting.

Article V. Election of Officers

Section 1.—There shall be a Nominating Committee consisting of a chairman, to be appointed by the President, and one representative from each district of the National Association, appointed by the President of that district. These appointments shall be made not later than October 15. The chairman of the Nominating Committee shall publish the names of his committee in the December issue of the *Journal of Health and Physical Education.* The membership at large may suggest nominations to the chairman of the Nominating Committee.

The chairman of the Nominating Committee shall write to each member of the Representative Assembly on or before December 15, giving a list of the committee members and in-

viting suggestions for nominations to be sent to the chairman of the Nominating Committee or to the district representatives of the Nominating Committee.

The Nominating Committee shall meet prior to the Assembly meeting at which officers are to be elected, giving due consideration to all persons suggested for nomination.

If any member of the Nominating Committee is absent at the time of the annual meeting, the President of the National Association shall appoint a substitute to attend, to insure full representation from all districts.

No restriction shall be placed on the Nominating Committee as to who the nominees shall be. The Committee shall first submit a slate of at least three names for the office of President-Elect. A clear majority of the vote shall be indicated for one person; otherwise the two persons with the highest number of votes shall again be voted upon.

Section 2.—The officers for each Division shall be the Vice President, the Vice President-Elect, and the immediate past Vice President. The Vice Presidents-Elect for Health, Physical Education, and Recreation shall be nominated at least thirty days prior to the annual national convention by the chairmen and secretaries of the sections and affiliated organizations within their respective divisions, and shall be elected by the Representative Assembly. A slate of at least three names for each Vice President shall be submitted to the Assembly in a manner to be determined by each Division. The Vice Presidents-Elect shall automatically succeed to the offices of Vice Presidents at the conclusion of the next annual convention.

Article VI. District, State, Nation, and Province Associations

Section 1.—There shall be the following districts: Eastern, Central, Midwest, Northwest, Southern, and Southwest. It shall be the duty of the Representative Assembly to assign the different states to their respective districts. The districts and the states embodied in each are: Central District—Colorado, Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, South Dakota, Wyoming; Eastern District—Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont; Midwest District—Illinois, Indiana, Michigan, Ohio, West Virginia, Wisconsin; Northwest District—Idaho, Montana, Oregon, Washington; Southern District—Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia; Southwest District—Arizona, California, Nevada, New Mexico, Utah.

Section 2.—The District of Columbia and the provinces of Canada shall be considered upon the same basis as states as hereinafter provided.

Section 3.—Each district is entitled to one page in each issue of the Journal for news items and announcements pertaining to that district.

Section 4.—Each district, state, nation, or province may form its own association, make its own constitution, elect its own officers, and manage its own affairs provided the National Constitution and By-Laws be not violated.

Section 5.—To be eligible for affiliation with the National Association, each district, state, nation, or province association must hold at least one meeting each year, reporting same to the Executive Secretary-Treasurer of the National Association within thirty days after date of meeting. Each district shall submit a copy of its annual financial statement at this time. Each state, nation, or province association must have at least twenty-five members of the National Association to be affiliated with that body, as hereinafter provided unless it is admitted upon petition in accordance with Article II, Section 1, of these By-Laws.

Section 6.—To become affiliated with the National Association, a state, nation, or province association shall petition the Representative Assembly through the Executive Secretary-Treasurer at least thirty days prior to the annual meeting of the Assembly. The petition shall include a copy of the state, nation, or province constitution, a list of the officers of the association, a copy of the minutes of the last regular meeting, a list of its members who are members of the National Association, and the names of the representative or representatives proposed for the Representative Assembly.

Section 7.—The Representative Assembly may accept or expel any district, state, nation, or province association by two-thirds majority mail vote of the entire membership of the Assembly. No vote shall be valid beyond thirty days after date of official notification. A district, state, nation, or province association may be expelled for violation of the Constitution and By-Laws of the American Association for Health, Physical Education, and Recreation.

Article VII. Organizations and Sections

Section 1.—The term "Organization" refers to the type of official service rendered by that body. The term "Section" refers to major interests of persons who constitute that group.

Section 2.—The following organizations are affiliated with the National Association: In the Health Education Division: American School Health Association, YWCA Health Education Directors' Society; In the Physical Education Division: American Academy of Physical Education, American Physiotherapy Association, Boys' Clubs of America, Inc., Canadian Physical Education Association, College Physical Education Association, Delta Psi Kappa, National Association of Physical Education for College Women, National Collegiate Athletic Association, Phi Delta Pi, Phi Epsilon Kappa, Physical Education Society of the YMCA's of North America, and the Society of State Directors of Health and Physical Education.

Section 3.—The following Sections are included in the National Association: Special Sections in the Health Education Division: Dental Health, Health Instruction, Mental Health, Nutrition Education, Safety Education, School Nursing, School Physicians, Therapeutics.

Special Sections in the Physical Education Division: College and University Physical Education for Men, College and University Physical Education for Women, Dance, Intramural Athletics, Men's Athletics, Private School Physical Education, Public School Physical Education, Women's Athletics.

Special Sections in Recreation Division: Camping and Outing, College Recreation, Industrial Recreation, Institutional Recreation, Municipal Recreation, Park Recreation, Private Recreation, School Recreation.

General Sections in all three Divisions: City Directors, Measurement and Evaluation, Professional Education, Professional and Public Relationships, Research, Student.

Section 4.—Each Organization or Section shall have the right to fix the qualifications of its members.

Section 5.—To be eligible for continuance of affiliation with the National Association, each Section must present or sponsor a program in connection with the national convention. Each Affiliated Organization may present or sponsor a program in connection with the national convention, and must in addition, have a minimum of twenty-five members who are members of the National Association. Members of the National Association may attend the programs and discussions of any Section. Each Section shall hold a meeting at the annual convention for the purpose of conducting such business as it may deem necessary. Each Section shall elect officers at this business meeting unless other arrangements for the election of officers have been made.

Section 6.—To become affiliated with the National Association an Organization or Section shall petition the Representative Assembly through the Executive Secretary-Treasurer at least thirty days prior to the annual meeting of the Assembly. The petition shall include the title, purpose, and officers of the Organization or Section, a copy of the minutes of its last regular meeting, a list of its members who are members of the National Association and the name of the representative proposed for the Representative Assembly, as provided in Section 8 of this article. The Executive Secretary-Treasurer shall send a copy of the petition to each member of the Representative Assembly at least ten days before the date of said meeting.

Section 7.—The Representative Assembly may accept or expel any Organization or Section at a regularly authorized

"We're Talking to the Wrong People"

American Education Week, November 9-15, 1947

By
BEN W. MILLER
Executive Secretary, AAHPER

IT HAS been the author's happy privilege and official responsibility to attend a great number of conferences, conventions, and committee meetings during the past several years. Most of them were necessary. Practically all of them were planned to serve some commendable purpose. Some good resulted from the majority. Invariably, however, there was one conviction expressed by at least one person. The relationships with other agencies, organizations, with general educators, public health people, the general practitioner, the politicians, the parents, the taxpayers, or the city officials, —yes, *the public!*—were found wanting.

If the meeting lasted long enough for a discussion of the question "How are we really going to get the job done?" someone always said, in essence, "We're talking to the wrong people." The remarks varied but ran true to form. Many said, "I wish we could have had all superintendents, members of boards of education, and mayors here." Others said, "Why couldn't Mr. Jones have heard that panel discussion?" Still others said, "We spend our time convincing ourselves; we talk to ourselves too much, we're talking to the wrong people."

There are basic reasons and justifications for any such observation which occurs so frequently. Every professional group should be concerned with public support. Each group finds its only justification for existence in its efforts to fulfill basic human needs. Its program depends upon public support which is dependent largely upon public opinion.

If the message of our field work is carried to the people and the people are brought to the schools much can be done to set the professional pattern for the coming years. The Association urges and feels that it can count on all to aid in any possible way.

For the third consecutive year the profession has been granted the official opportunity through the activities of American Education Week to enhance in the public mind its dignity, worth, and essential services. There is no better method through which this can be done than by cooperating 100 percent on this occasion.

American Education Week is an annual celebration of American ideals of education and life. It has come to be recognized as the outstanding period of the entire school year for educational interpretation. It is sponsored by four important national groups: the National Education Association, the American Legion, the United States Office of Education, and the National Congress of Parents and Teachers. These four organizations represent millions of Americans but they reach millions more through their channels of contact.

It is estimated that eight to ten million parents and other citizens visit their schools each November during this observance. Millions of other citizens are reached through newspapers and magazines, the radio, the movies, public meetings, and the messages sent into the homes. Scores of national, regional, and state organizations with local units are enlisted in the cause of education. Cooperating organizations include service clubs, civic groups, women's organizations, religious bodies, and others which represent the lay public. Better schools are the result of these activities.

In "The Story of American Education Week" Lyle W. Ashby states,

> We celebrate Christmas because it gave us a great religion. We observe the Fourth of July because it gave us a free nation. We magnify the schools during American Education Week each year because through them we preserve and develop the finer values of our civilization. During this week American public interest centers upon the schools; a special welcome is extended parents and other citizens to visit and study the schools and the part they play in our life; teachers and citizens join in rededicating themselves to the cause of education and democracy.

The twenty-seventh observance of American Education Week is scheduled for November 9-15, 1947, and is built around the general theme, "The Schools Are Yours." The challenge to the public is incorporated in the following statement related to the general theme: "The schools are *yours,* Mr. and Mrs. American Citizen. They are attended by *your* children. They reach millions of men and women. They are paid for by *your* dollars. *You* place the responsibility for their administration in the hands of boards of education. These boards establish policies and have charge of expenditures. Under their direction and upon *your* authorization schoolhouses are built and equipped. *You* empower these officials to employ teachers under the legal arrangements and with the qualifications prescribed by *your* lawmakers and school authorities. The schools are the expression of the American tradition of free schools for free people. Their effectiveness, now and in the future, depends upon how well *you* translate their basic purposes into reality for all the children."

The official week's program is general and suggestive, designed to serve in all communities and at all school levels. The daily topics are: Sunday, November 9, "Securing the Peace"; Monday, November 10, "Meeting the Emergency in Education"; Tuesday, November 11, "Building America's Future"; Wednesday, November 12, "Strengthening the Teaching Profession";

American Association for Health, Physical Education, and Recreation

Membership Directory
As of June 1, 1947

DEDICATION

The report and the Membership Directory for 1946-47 are dedicated with special tribute to the thousands of individuals who have responded so cooperatively during the past year.

To all the professional leaders who have contributed their influence, time, talent, and money toward the achievements represented in these pages heartiest appreciation and congratulations are extended.

To the National Membership Committee and the state and district membership chairmen the profession is especially grateful.

To the Board of Directors appreciation is expressed for its vision and sustained support in giving our organizational pattern more life and vigor.

† On Honor Roll also for 1945-46.

One Phase of Achievement

Membership Report, 1946-47

By
BEN W. MILLER
Executive Secretary, AAHPER

IN regard to many urgent professional problems, this has been a year of great achievement for the organized profession—local, state, and national. One significant index of this achievement is the definite progress made in the identification of the professional workers in health education, physical education, and recreation with the national and district associations which along with local and state associations represent all of us.

We have many unsolved problems that require even stronger associations. It will be only through continued and sustained cooperation and leadership as given during the past year that the profession will continue its march toward extended vision, purpose, and achievement in its varied and extensive program. To have states and districts meet their membership quotas means much more than simply getting members. The significant thing is not the quota itself. It is the lifting of the profession to an entirely new plane of dedication and service. It means unification, expansion, and development of the profession in which progress can be made along all lines.

Unification, expansion, and development of any profession do not come in a week, a month, or even a year. There are no panaceas or startling short cuts. It takes continuous effort over a period of years but the rewards will come eventually. The encouraging results during the past four years give reason to believe that with the spirit of service exemplified by thousands of local leaders and with even further collective effort in joining and working together the goal for both national and state association membership might well reach 30,000 in four more years.

Over fifty percent larger than any other department in the National Education Association, the AAHPER has grown in such numbers as to merit the added recognition and prestige given to our professional problems by medical, public health, educational, and lay leaders.

Honor Groups

The total membership count as of June 1, 1947, was 15,218, an increase of 2,515 or 19.8 percent over June 1, 1946. This number exceeds by almost 5,000 the highest prewar membership figure and is practically double the membership count during the middle of the war period.

The total membership and the gains or losses as of May 31 of each year have been:

Year	*Total*	*Gain or Loss*	*Year*	*Total*	*Gain or Loss*
1935	6479	477	1942	8626	— 675
1936	7501	1022	1943	7853	— 773
1937	8092	591	1944	8348	495
1938	8555	463	1945	10585	2237
1939	8393	— 162	1946	12703	2118
1940	10231	1838	1947	15218	2515
1941	9301	— 930	1948	?	?

Three districts, thirty states, and the District of Columbia officially accepted their quotas for 1946-47 based upon an equitable distribution of a twenty percent membership increase for all states over the previous year. All six districts, thirty-three states and the District of Columbia designated membership chairmen.

Two district associations, fourteen state associations, and the District of Columbia achieved Honor Roll status. They are designated on the Honor Roll Scroll accompanying this report. Nine more states came very close to achieving their quotas.

Eight states and one district have achieved their quotas for three consecutive years, namely: Delaware, District of Columbia, Illinois, Louisiana, Massachusetts, Oregon, Utah, Washington, and the Northwest District. In addition, Connecticut repeated its achievement of attaining the Honor Roll the previous year.

Seventeen teacher-education institutions made the Honor Roll for one hundred percent enrollment of all major students sometime during the year. Three cities achieved recognition for one hundred percent enrollment of all teachers. There were undoubtedly many more not reported.

By States.—Thirty-seven states and the District of Columbia made increases in membership ranging from 1 to 326. Eleven states failed to equal or better their membership counts for the preceding year, namely, Alabama, Delaware, Georgia, Maine, Michigan, Missouri, New Hampshire, New Jersey, North Carolina, Vermont and Virginia. Of these states, Delaware, Missouri, and Vermont made the Honor Roll the previous year. Only one state, Georgia, has failed to increase its membership during the past two years.

Those states exceeding a forty percent increase in their memberships for the year were: Utah, 192.0; Maryland, 135.4; South Carolina, 121.3; Oregon, 89.5; Minnesota, 87.4; Idaho, 71.0; Indiana, 59.2; District of Columbia, 54.5; Washington, 50.4; Mississippi, 45.8; Nevada, 45.5; and Louisiana, 41.9. Of these twelve states, only South Carolina, Idaho, Mississippi, and Nevada failed to achieve their quotas. Idaho is

* By constitutional provision the number of Representative Assembly members is based on the total active, professional, and life members on the following scale: 25-100 members, one assembly member; 101-300 members, two assembly members; 301-500 members, three assembly members; 501-750 members, four assembly members; 751-1,000 members, five assembly members; 1,001-1,250 members, six assembly members.

the only state which has had over forty percent increases or more for two consecutive years, 1945-46 (70.0) and 1946-47 (71.0).

New York made the largest numerical gain of any state, 326, reaching a total of 1817. Other notable numerical gains were: Minnesota, 264; California, 237; Illinois, 213; Indiana, 174; Utah, 144; Washington, 134; Maryland, 130; Pensylvania, 130; Oregon, 119; Texas, 108; and Louisiana, 99.

New York won first place for largest membership (1817). Illinois stood second (1324); California, third (1057); Pennsylvania, fourth (762); and Ohio, fifth (716).

The average number of members in each state is 299 compared with 249 in 1945-46, 208 in 1944-45, and 165 in 1943-44. The median number is 198 compared with 145 in 1945-46, 122 in 1944-45, and 93 in 1943-44. There is an exceedingly large range among the states (16 to 1817) with fifteen having fewer than one hundred members. Twenty-four states have more than 200 members compared with twenty-one in 1945-46, sixteen in 1944-45, and ten in 1943-44. Five states have less than 43 members compared with six in 1945-46, ten in 1944-45, and fifteen in 1943-44.

Only two states, Nevada and New Hampshire, have less than 25 active, professional, and life members compared with four states in 1945-46, six in 1944-45, and nine in 1943-44. According to the Constitution and By-Laws, these states are not granted representation on the Representative Assembly. Idaho and Wyoming achieved representation in the Assembly during the year.

Ten states increased their active, professional, and life membership enough to gain one additional representative in the Assembly, namely, California, Florida, Maryland, Minnesota, New York, Oklahoma, Tennessee, Texas, Utah, and Washington. However, three states, Colorado, Missouri, and Ohio, lost one representative in the Assembly due to decreases in active, professional, and life members.

By Districts.—The Northwest District Association led in the greatest percentage of gain, 58.8. Next came the Southwest District Association with a gain of 40.7 percent. All districts made percentages of gain greater than 14. The Eastern District made the largest numerical gain, 588, reaching a total of 4514, the largest membership of any district. The Midwest District made the second highest numerical gain, 526. Every district added 273 or more to its total count.

By Types of Membership.—Active membership accounted for 47.5 percent of the total. Only 19.4 percent of the memberships were professional and thus received the reported research in the field. Only 0.8 percent were life and honorary memberships. Student memberships accounted for 25.4 percent of the total. Only 5.4 percent of the total memberships are student professional. Subscriptions to the *Research Quarterly* amounted to 1.5 percent.

Student professional memberships showed the greatest percentage of gain during the year, 178.5, compared with a gain of 87.4 percent the previous year and 65.6 percent two years ago. Honorary and life memberships showed the next highest percentage of gain during the year, 39.5, compared with a gain of 28.4 percent the previous year.

There was a gain of 32.4 percent in student active memberships compared with a gain of 37.1 percent last year and 81.5 two years ago. The combined student active and student professional memberships increased 46 percent during the past year which is a most encouraging trend.

Regular professional memberships increased 10.7 percent compared with a 24.7 percent gain a year ago. Active membership increased 9.9 percent compared with a 10.6 percent gain a year ago.

With further ease of delivery and lifting of restrictions on payments, foreign memberships, not including Canada, increased 64 percent compared with a gain of 20.1 percent the previous year.

The U. S. Possessions and Canada increased their total memberships 19.9 percent compared with 29.6 percent a year ago, accounted for largely by Canada and Hawaii. The latter, now being considered by Congress for statehood, has 70 members which exceeds the membership of thirteen continental state associations. Canada with 159 members exceeds the membership of twenty state associations.

Although the total number of subscriptions to the *Research Quarterly* alone is low, there was an increase of 44.2 percent during the year.

Continued Efforts Are Essential

Quotas for 1947-48 for state, district, and national memberships are presented in Table II. Due to the increases in membership fees, all of which are effective October 1,* the quotas are the same as for last year except in two cases where adjustments seemed necessary. In determining these quotas three factors were given equal consideration:

1. The total population of each state and district in relation to the total population of the United States.
2. The total number of teachers in each state and district in relation to the number in the United States.
3. The amount of money spent for education in each state and district in relation to the amount spent in the United States.

On the basis of these factors states and districts were allotted proportionate shares of the national membership goal for 1947-48 set at 16,499.

These quotas will be presented to state and district associations for acceptance.

Quotas are applicable to both state association and national association memberships. Membership in the National Association automatically gives one membership in the district association. Local association memberships should be encouraged strongly. Therefore local, state, and national membership campaigns should be coordinated and conducted simultaneously. At no time has there been intentional fostering of the idea that national memberships are more important than

* The new life membership fee became effective at the Seattle Convention.

state memberships. It is only through strong local, state, and district associations that the professions will gain a stronger and more enduring status.

Strenuous effort on the part of leaders in most states and districts will be imperative if the 1947-48 goals are to be achieved before the official membership count is made on June 1, 1948. This is a continuing challenge to state and local leaders. In four years we should be 30,000 strong!

Recognition is given to different groups which merit Honor Roll status. There will be published in the *Journal of Health and Physical Education* the following Honor Rolls with names of membership chairmen:

1. States achieving state association membership quotas by June 1, 1948.
2. States achieving National Association membership quotas by June 1, 1948.
3. Teacher-education institutions achieving 100 percent enrollment of all major women students at any time during the year.
4. Teacher-education institutions achieving 100 percent enrollment of all major men students at any time during the year.
5. Cities achieving 100 percent enrollment of all school health, physical education, and recreation teachers at any time during the year.
6. State and local associations adopting the unified membership plan at any time during the year.

Sample materials that may be used will be distributed widely. Anyone indicating how many copies of the materials they will need will be sent the requested supply immediately.

The name of the National Membership Committee has been changed to the State, District, and National Membership Committee. It is now a standing committee of the Association with only one-third of the personnel changing each year.

Sustained cooperation and leadership are deeply appreciated. With everyone helping the affiliation of individuals in our field with their state, district, and national associations is insured. Each year such achievement gives us a fine basis for more intense efforts in the immediate future and should give every interested professional person a sense of satisfaction that his or her professional organization is responding well during these early postwar years.

National Membership Committee, 1946-47

Bourgeois, Mrs. Vesta R., Southwestern Louisiana Institute, Lafayette, Louisiana, Chairman

Key for Table II

States and districts in capitals achieved quotas for 1946-47.

† States and districts which have achieved quotas for three consecutive years.

†† States and districts which have achieved quotas for two consecutive years.

* States and districts which accepted quotas for 1946-47.

** Quotas are to be presented for acceptance by state and district associations.

*** Quota based on total.

Note: A twenty percent adjustment was made in the quotas for Maine and New Hampshire for 1947-48.

MEMBERSHIP DIRECTORY

As of June 1, 1947

Organization of the Directory.—After considering various methods of organizing the Directory it was decided to follow the one used in the first edition, namely, that of listing memberships alphabetically by states and alphabetically within each state. Memberships for United States possessions and for foreign countries are listed after those for the states. It was felt that this method would be the most practical one from the standpoint of membership promotion. A detailed summary and an analysis of all memberships accompany the list of names.

The following code is used after the name and address of each member to indicate the type of membership which is held:

H—Honorary life membership
L—Life membership
P—Professional membership
A—Active membership
SP—Student professional
SA—Student active
Q—Research Quarterly

It should be remembered that the type designated as "Active" will be known simply as a "membership" beginning October 1 in accordance with the new membership rates.

The month of expiration, which occurs three times per year, namely, September, December, and March, one of which applies to every membership (except complimentary or exchange) is indicated on the mailing label attached to your copy of the *Journal*. When no code appears after a name in the Directory the subscription is complimentary or exchange.

Memberships listed under the name of an *individual* appear with the last name first; *institutional* memberships appear according to the first word of the address as shown on the addressograph plates in the membership files.

In some cases more than one membership is held by the same person or institution and in these instances the total number of copies is not shown. When a number of student copies are sent to one address, however, this fact is shown.

General abbreviations in addresses have been used wherever possible in order to conserve space. Except when it is a common abbreviation (Library—Libr), the first word in institutional addresses usually appears in full to avoid confusion in the alphabetical listing. The most commonly used abbreviations are as follows:

Avenue—Ave	Public—Pub
Boulevard—Blvd	Recreation—Recr
College—Coll	Senior—Sr
Department—Dept	Schools—Sch (other than high school)
Director—Dir	State Teachers College—STC
Division—Div	Station—Sta
Education—Educ	Street—St
High School—HS	Superintendent—Supt
Junior—Jr	Supervisor—Supv
Librarian—Librn	Teacher—Tchr
Library—Libr	Training—Trng
Physical—Phys	University—Univ

AT LAST IT FEELS RIGHT!

It's about time someone built a rubber-covered football that not only has the traditional waterproof and wearing qualities . . . but a football that *feels right.*

Our technical staff has labored over this problem for 15 years, seeking to produce the conventional "feel" to which you are accustomed without sacrificing the durability for which we are famous. *Well, we've done it!*

The improved CF9 with the distinctive new reddish brown cover wears right, *PLAYS RIGHT,* and *FEELS RIGHT.*

We give you the greatest improvement in football since the flying wedge . . . The New Voit CF9.

VOIT

DENTAL HEALTH

(For both Elementary and Secondary levels.) 5-Way Plan for Elementary classes and special material for High School groups.

Arouse keener interest in hygiene programs with this FREE material

PERSONAL CARE

Real teen-age appeal in Physical Fitness and Good Grooming programs for High School and College groups.

Many teachers report excellent results from use of wall charts, student leaflets. Send for these FREE aids today.

YOUR HYGIENE TRAINING is helping to give many boys and girls a valuable lifetime asset in good personal care habits. And to bring fresh interest to those important health and grooming programs, we have created special visual aids.

Large full-color wall charts effectively point out the essentials of Grooming for School and Job, Dental Health, and Muscle Structure, as well as Body Cleanliness and Hand Care. Student leaflets, attractively illustrated, clearly explain the "how" of personal care—and provide check sheets for recording progress.

Send now for the complete units you need—or for additional supply of student leaflets for new groups. They're free—just mail coupon below.

Bristol-Myers Co., Dept. JH-97
45 Rockefeller Plaza, New York 20, N. Y.

Can you pick the child who skipped breakfast?

Could you guess, just by looking at this group, which child had come to school without his breakfast? Chances are you couldn't—and yet, if this were your class, how important it would be to *know!* For only when you become thoroughly familiar with your pupils' daily eating habits, not just at breakfast, but at every meal—only *then* can you hope to do the vitally important job of raising nutritional standards where needed.

Today, in 33 different states, far-sighted administrators and teachers are using authoritative materials made available by General Mills to help them conduct special diet surveys among their students. These teachers, aware of the acute need for diet improvement, have made checks of what their children are eating and how each meal contributes to the total day's diet. The results are often surprising, revealing faulty eating habits even in the most well-to-do communities where they are least suspected.

The diet survey is just one step in General Mills "Program of Assistance in Nutrition and Health Education." Once the teacher knows, from survey results, what improvements are needed, General Mills can help her follow through with a suggested nutrition program—by providing practical materials, plans and individual guidance. These are all geared to her own special problems—and prepared by leading educators and health workers.

If you would like to study the diet habits of *your* students—learn how to adapt a nutrition program to *your* curriculum—mail this coupon today.

EDUCATIONAL SECTION, Dept. of Public Services, General Mills, Minneapolis 1, Minn.

The Story of Menstruation

A 10-minute color movie with sound by Walt Disney Productions

SPONSORED BY KOTEX* PRODUCTS

Teachers of Teen-Age Girls

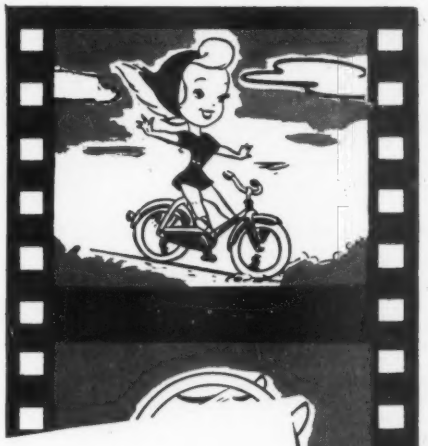
From THE JOURNAL of the American Medical Association—"This excellent film (*The Story of Menstruation*) is intended for showing to groups of adolescent girls to explain the physiology of menstruation. This film accomplishes the extraordinary feat of teaching something essentially serious while preserving an air of good cheer and relieving the tension by unexpected humor. It consists entirely of animation, beautifully colored and accompanied by carefully worded commentary. The film does not undertake too much, since it is specifically adapted to a particular group. The introduction of this film into the schools should of course be accompanied by the teacher's guide and by the pamphlets 'Very Personally Yours' for individual distribution."

Teachers Welcome It—*The Story of Menstruation* was filmed to help teachers create a normal, healthy attitude in the minds of teen-age girls. Teachers have found it such a big help in handling this difficult subject that they have shown it to literally hundreds of thousands of students since its release in November of '46. In city after city, school systems are registering their approval by showing the film to every girl in all junior and senior high schools.

*T. M. REG. U. S. PAT. OFF.

GET THESE TRAINING AIDS FREE

Very Personally Yours, a booklet based on the film, illustrated in color with scenes from the movie. Contains supplementary material for review and reference. Order one for each student seeing the film.



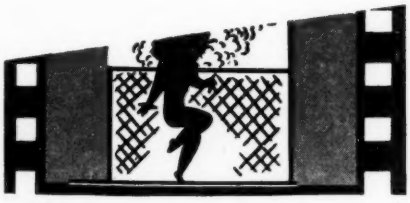
Acclaim New Educational Film

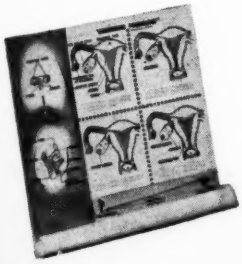
As one teacher commented, "The picture portrays beautifully and unemotionally a phase of a normal girl's life. It covers in ten short minutes far more subject matter than a teacher could handle in forty-five minutes, even with careful preparation."

Students Applaud — The reaction of students is deeply gratifying. Girls participate in discussion readily — ask questions freely — with no trace of embarrassment. Fear and superstition are banished in the light of scientific fact. And common-sense rules for physical and mental health take the place of rumors and taboos.

Parents Are Enthusiastic — "I'm glad my daughter had the opportunity of seeing this film. I wish I could have seen such a film when I was a girl" — that has been the reaction of hundreds of parents at PTA meetings where the film has been shown.

How to get Prints — 16 mm. prints are available to schools without charge on a short-term loan basis. Just fill out the coupon below and you will receive complete information promptly. Demand for prints for Fall is heavy, but we will try to meet your request so that you can fit the picture into your schedule at the right time.





Menstrual Physiology, large, full-color chart for class-room use. Supplements the booklet. Illustrates the menstrual process in simple, easy-to-understand diagrams.

Ocean tank suits

Now, as before the war, available in fast vat colors knitted with fine two ply combed yarn.

Known for many years for their excellent fit and long service. It is the number of times a suit gives satisfactory wear that is the true measure of its cost.

Copen	Scarlet
Royal	Green

Fast Vat Dyes
Sizes 22 to 46
$16.50 a dozen

Any organization that has not used OCEAN suits may have a free trial sample on request.

CAPS	KICKA BOARDS	TERRY ROBES	SWIM GLOVES
NOSE CLIPS	DIVING MASKS	TOWELS	RING BUOYS
SWIM FINS	SWIM GOGGLES	PLAY BALLS	COMBS
EAR DRUM PROTECTORS	DIVING BRICKS	WRIST BANDS	PAPER SLIPPERS
KLOGS, WOOD	FETCHING PUCKS	BRASS CHECKS	POOL THERMOMETERS

Authentic Apparatus for Your
GYMNASIUM

Apparatus makes a gymnasium authentic . . . truly a place "where brave feats of strength and bodily control" are performed.....in classic tradition.

Authentic apparatus, such as is manufactured with modern methods by the 79-year-old J. E. Porter Corporation, permits "horizontal" physical development of student populations.....building health and fitness uniformly for all.

Porter's installation engineers will gladly help you plan for efficient, adequate facilities..... promptly at your request.

Standard items can be shipped immediately from present stocks. Estimates for installed equipment submitted without obligation.

WRITE FOR PORTER'S BIG 1947 CATALOG AND PRICE LIST

THE J. E. PORTER CORPORATION OTTAWA, ILLINOIS

Compare them all

for scrimmage or stadium

Plays *dry* in *wet* weather. All the "feel" of the conventional cover, yet it wears three times longer.

★

Same size, weight and shape as balls adopted as *official.*

★

PERMAHYDE is the Pennsylvania name of a new, one piece molded cover for athletic balls perfected by Pennsylvania.

THE GREATEST IMPROVEMENT SINCE VALVE INFLATION

Toss this ball and a conventional ball to a couple of your best boys. Tell them to throw a few passes, kick a few long punts, place-kick a couple for accuracy. Here's what you'll find.

This great new type football has the same "feel", is just as accurate and as perfectly balanced as the ball you're using. They're both the same weight, shape and size. But this ball won't get soggy, logy or heavy in wet weather. That makes it better for practice or actual play.

In spite of the fact it *costs less . . . it wears three times longer.* That's a *big help* to your budget. The next time you're ready to *buy* . . . better *specify* Pennsylvania.

One of the great new line including **BASKETBALLS, VOLLEY BALLS, SOCCER BALLS, SOFT-BALLS, WATER POLO, TENNIS, PLAYGROUND AND HAND BALLS.**

PENNSYLVANIA

WORLD'S LARGEST MANUFACTURER OF TENNIS BALLS

PENNSYLVANIA RUBBER CO. • PENN-CRAFT PARK • JEANNETTE, PA.

MOSBY BOOKS

On Physical Education

Just Released!

PHYSICAL FITNESS, APPRAISAL AND GUIDANCE
by **THOMAS KIRK CURETON** of the University of Illinois. With collaborators. 566 pages, illustrated. **PRICE, $6.00.**
Dr. Cureton and his associates have measured the physical fitness of thousands of normal young men and women on the Urbana Campus of the University of Illinois and have demonstated differences in scoring, undoubtedly interpretable in terms of health levels. This book is the record of these experiences. It is offered with the hope that it will be used by other colleges to make similar appraisals of their students—and that it will help to standardize the methodology of such work.

Cureton's **PHYSICAL FITNESS WORKBOOK**—2nd Edition.
A Manual of Conditioning Exercises and Standards, Tests and Rating Scales for Evaluating Physical Fitness. 150 pages. Illustrated. **PRICE, $2.50**
This new edition of the Physical Fitness Workbook has been reorganized to include illustrations and more complete descriptions of the exercises and conditioning activities. A very important addition is the series of rating scales based on the most modern statistical procedures and in line with the most approved educational use of such scales.

PERSONAL AND COMMUNITY HEALTH by C. E. Turner, 585 pages, 164 illustrations, 4 color plates. **PRICE, $3.50**

OBSERVATION and STUDY GUIDE for STUDENT TEACHERS
by **EDGAR M COOKE,** Ph.D., Professor of Psychology and Education, Carson-Newman College, Jefferson City, Tenn., and John H. Cates, M.A., Principal of Jefferson City Elementary School, Director of Practice Teaching, Carson-Newman College. 2nd Edition. 252 pages. In Preparation.

Second Edition—**TRACK AND FIELD ATHLETICS**
by **GEORGE T. BRESNAHAN** and **W. W. TUTTLE,** both of the University of Iowa. 497 pages, 74 illustrations. **PRICE, $4.50.**
Based on the judgment of many teachers of track and field athletics, the material in this new Second Edition has been rearranged so as to offer an improved sequence. A discussion of the straddle form has been added to the chapter on the running high jump. New topics have been included which deal with preparations for a track and field meet, track and field construction, and the responsibilities of the various officials.

SCHOOL HEALTH AND HEALTH EDUCATION
by **C. E. TURNER,** Ed. M., D.Sc., Professor of Public Health, Massachusetts Institute of Technology, 457 pages. **PRICE, $3.50.**
This book presents a picture of the modern school health program from the standpoint of its opportunities for health education. It is written for the course in School Health or in Health Education in the Teachers' College and for the teachers in service. Methods, curriculum building, source materials and other phases of health education are presented in detail. Its scope is broad and authoritative and its use will improve health programs—as well as the relations between directors and personnel.

The **CURRICULUM** in **HEALTH** and **PHYSICAL EDUCATION**
by **LESLIE W. IRWIN,** Ph.D., Associate Professor of Health and Physical Education, Boston University. 391 pages. **PRICE, $3.50**

COMPETITIVE SWIMMING and **DIVING**
by **DAVID R. ARMBRUSTER,** M.A., Associate Professor of Physical Education and Head Swimming Coach, University of Iowa. 295 pages. 15 Series of Illustrations. **PRICE, $3.25.**

WORKBOOK FOR PHYSICAL EDUCATION
by Mae Iddins, A.B., B.P.E., 144 pages, 73 illustrations. **PRICE, $1.50.**

LEONARD'S GUIDE TO THE HISTORY OF PHYSICAL EDUCATION

By FRED EUGENE LEONARD, A.M., M.D.
Revised and Enlarged by GEORGE B. AFFLECK, A.M., M.P.E.
Formerly Director, Health and Physical Education Division,
Springfield College, Springfield, Mass.

Octavo, 480 pages, 121 illustrations. Cloth, $5.50

This classic work which brings up to date the significant facts concerning the development of physical education through selected organizations throughout the world, has been thoroughly revised. It indicates the main contributions to the profession of certain leaders and of their successors during the last twenty years. The work describes the growth and the varying ideas of physical education from the times of the early Greeks and Romans down to the latter-day movements in Denmark, Sweden, Germany and England. The second part of the book decribes the development of physical education in our country.

The book describes the playground movement in America, the training of teachers and presents brief biographies of some of the more important pioneers. It is an example of thorough, painstaking, historical research of the highest order. The material, with the numerous monographs referred to in its bibliography, provides a book from which many further studies can be made. It is a work of genuine merit with which every teacher and student of physical education should be familiar. It is a thorough and discriminating study which offers a wealth of information.

New Special Offer

TO TEACHERS AND HEALTH EDUCATORS

Hygeia
THE HEALTH MAGAZINE OF THE AMERICAN MEDICAL ASSOCIATION

announces a new STUDENT GROUP STUDY PLAN

NOW...40% DISCOUNT ON GROUP ORDERS OF 10 OR MORE COPIES

Many Advantages for Teacher and Students

TIME SAVER
Teachers make assignments easily, quickly . . . students report faster . . . when individual copies are available.

BETTER RESULTS
Students derive greater benefit from health study and classroom discussion with their own personal copies.

REDUCED RATE
Teachers collect only 15c a copy from each student . . . a 40% saving from the regular 25c price of Hygeia.

QUESTION SERVICE
Each month instructors receive a set of Discussion Topic Questions based on each article in the current issue.

EASY TO ORDER
Orders can be increased, decreased, or cancelled upon advance notice. Credit on unused copies. Send group orders direct to Hygeia—they cannot be cleared through a subscription agency. Shipping charges prepaid by Hygeia.

MAIL THIS COUPON NOW!

Note Special Single-Copy Short Term Rates

HYGEIA, The Health Magazine, Dept. F.S.
535 N. Dearborn St., Chicago 10, Ill.

☐ Please mail further information on the Student Group Study Plan.

☐ Send me free sample copy of HYGEIA.

☐ Enter my personal subscription for the term checked below, beginning with the September issue.

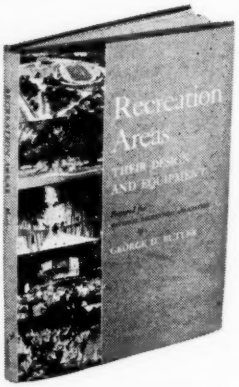
New Publications

RECREATION AREAS
THEIR DESIGN AND EQUIPMENT

Prepared by George D. Butler for National Recreation Association.



RECREATION AREAS, a successor to two widely used books — PLAY AREAS and NEW PLAY AREAS—is of interest and value to those responsible for the building of recreation facilities. It serves as a guide for the planning of recreation areas, especially playgrounds, playfields, and athletic fields. Outlines planning principles, offers practical suggestions for the design of areas, and contains detailed information as to facilities, structures and equipment.

The author classifies and describes the following types of properties comprising a modern recreation system: the play lot, the neighborhood playground, the playfield, the large park, the recreation and special recreation areas.

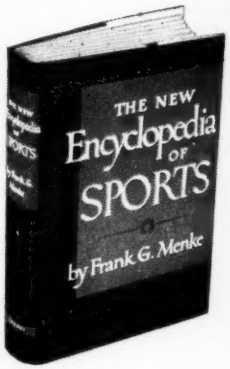
A consideration of certain objectives in planning presented: effective use of the entire site, provision of essential areas and facilities, ease of supervision or operation, facility of circulation and access, utilization of natural features, economy in construction and maintenance.

The contents: Types of Municipal Recreation Areas; Design and Construction Features; Playground Apparatus; Pools, Facilities and Equipment; Buildings; Areas for Games and Sports; The Neighborhood Playground; The Playfield; The Athletic Field; Landscape Design and Development; Preparation of Areas for Winter Use.

9" x 12" Cloth Illustrated $6.00

THE NEW ENCYCLOPEDIA OF SPORTS

By Frank G. Menke



This new, completely revised and re-written edition of the enormously successful ENCYCLOPEDIA OF SPORTS, by the master sports historian and statistician, Frank Menke, retains all the merits of the original work plus many new features that make it more outstandingly useful than ever before. This volume, almost double the size of the older book, ENCYCLOPEDIA OF SPORTS, contains twenty five new chapters filled with sports information exceedingly difficult to locate from any other source.

The high points of the author's *All Sports Record Book*, compiled in 1930 and long used as a standard reference, have been blended into the new book, making it not only a history of sports but also, to a large extent, a sports record book. THE NEW ENCYCLOPEDIA OF SPORTS includes histories of over one hundred sports and games, and embraces the list of champions and the outstanding sports records. In addition, much data is supplied by noted historians of many sports. Sports Chronologies are added—a new feature not found in former editions. All those who have the original edition will want this new complete volume to keep abreast of the ever changing sports scene. A worthwhile textbook for all students interested in sports.

6⅝" x 9¾" Cloth Ready Late October $5.00

INDIVIDUAL SPORTS FOR MEN AND WOMEN

By Rachael B. Yocom and H. B. Hunsaker

A basic instruction manual for students and teachers who are interested in coeducational sports. The authors point out the difference and similarities in the technique of performance between men and women, as well as combine the best in teaching from methods used by men and women instructors.

The material should contribute in the final solution to problems in instructional method, in teacher training, in service training for the physical education instructor, and should stimulate closer co-operation between the men's and women's physical education and athletic programs for the best interests of the profession.

A chapter on Application of Terms gives an explanation of the nomenclature used to afford a better understanding of its purpose, and to facilitate its use.

The contents: Archery, Badminton, Fencing, Golf, and Tennis analyzed and illustrated under the following headings:

History of the Sport—Selection, Care and Repair of Equipment
Teaching Progression—Summary and Analysis of Skills
Strategy or Hints for Beginners—Suggested Class Organization

6" x 9" Cloth Illustrated $4.00

A. S. Barnes and Company

Publishers Since 1838

Sports

FIELD HOCKEY FOR GIRLS

By Josephine T. Lees

Designed to help the coach interested in developing good hockey. Includes a series of diagrams and explanations which outline the duties of all players in numerous situations. Each diagram illustrates the perfect attack and defense response to a stated situation.

These charts may be used by the student as a check on her individual advancement on the field or as lesson plans for practice teaching.

The contents: History and Equipment, Technique of Strokes, Forward and Defense Play, Passing, Roll-in, Free Hit, Bully, Defense Tactics, The Goalkeeper, The Official.

6" x 9" Cloth Illustrated $1.50

FOOTBALL

By W. Glenn Killinger

America's most popular and spectacular sport has become an open game which requires intelligence, speed and endurance. This book gives the player and coach clear, practical, usable instruction step by step from fundamentals of handling the ball to generalship and strategy. Questions for discussion and text questions conclude each chapter. Fully illustrated with photographs and line drawings.

The contents: Fundamentals of Handling the Ball, Offensive Line Play, Defensive Line Play, Coordinating the Defense Line, Defensive Team Play, Forward Pass Defense, Offensive Football, Offensive Formations and Plays, Generalship and Strategy.

6" x 9" Cloth Illustrated $1.50

SOCCER

By Samuel Fralick

This book gives the coach, the player and newcomers to the game a basis for learning the game and for improving to that stage where its basic movements and intricate play situations may be mastered. It covers the fundamental movements, definite practice schedules for coaches and defines and explains the type of positions and the type of players who best fit into these positions.

The contents: Basic Rules, Fundamentals, Individual Play-Defense, Individual Play-Offense, Practice Schedule, Plays, General Rules Summary, Keeping Score.

6" x 9" Cloth Illustrated $1.50

SOCCER AND SPEEDBALL FOR GIRLS

By Florence Hupprich

These two sports—outgrowths of the same basic fundamentals—presented together in one volume. The author outlines the fundamental techniques of soccer and speedball, the faults of beginners and how to correct them, and the fundamentals of team play. She also includes suggested methods of practicing techniques and teaching.

Included in the contents: A brief history and explanation of soccer and speedball, playing positions, techniques, team tactics, suggestions for teaching and coaching, suggestions for practicing skills, umpiring, bibliographies for both sports.

6" x 9" Cloth Illustrated $1.50

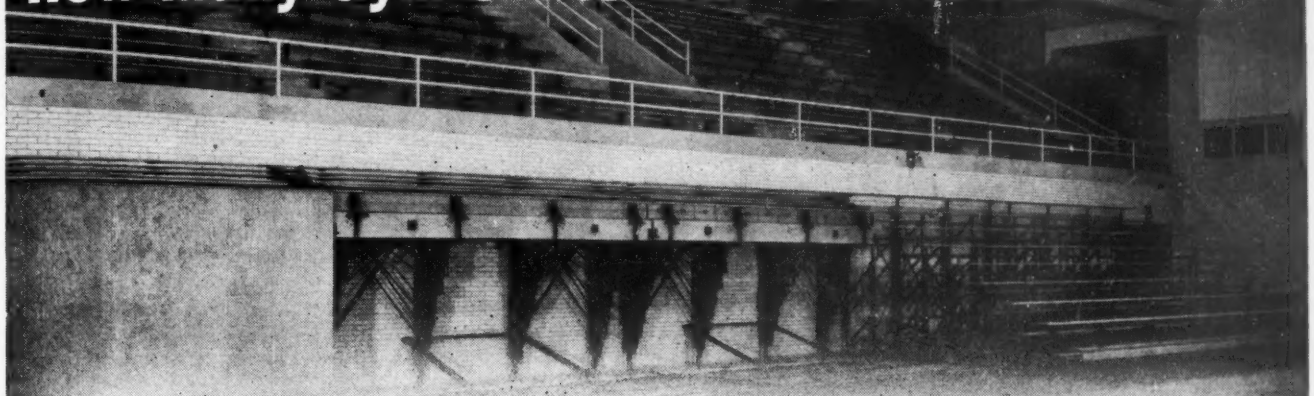
How Many Gym Seats Will You Need in '48?



School gymnasium attendance crowds are increasing tremendously. Your today's seating facilities will probably prove totally inadequate in '48. The reason? Gymnasiums everywhere are fast becoming the theatres for communities' activities.

Better start planning now for your future seating needs. You don't have to guess. A nation-wide survey* on future seating needs will help you plan an intelligent and accurate estimate.

Universal Roll-A-Way and Fold-A-Way bleachers are engineered to provide greater seating capacity in any given space. They're built to safely carry four times their capacity loads—they're super-safe, attractive and durable. Wherever there are sports, you'll find Universal Bleachers. Do Your Planning NOW!

* The results of our nation-wide survey on seating capacity needs, both present and future, are available to you without cost. Send for your copy, including chart, today.

Universal BLEACHER COMPANY

CHAMPAIGN — Bleacher Experts for 30 Years — ILLINOIS

Have a Coke

ALTA-CO. POWDER
IN SHOWER ROOM FOOT TUBS
IS
GROUP INSURANCE
AGAINST
ATHLETE'S FOOT

ALTA - CO POWDER makes your public foot bath a **real** fungicide, killing within 60 seconds all of the **several** related species of fungi and their spores which commonly produce Athlete's Foot.

ALTA-CO hygienic foot bath maintenance is low—a pound of Alta-Co Powder to a gallon of water is the correct, economical solution . . . **and it will not harm skin or towels.**

Write for complete, informative booklet, "Athlete's Foot—A Public Health Problem."

Alta-Co. POWDER

HEALTH GUIDES AND GUARDS

Revised and Enlarged Edition

By Francis P. Wall and Louis D. Zeidberg

The revision of this excellent text contains many new chapters, covering such important subjects as food and water supply, sewage and refuse disposal, infection, immunity, transmission of diseases, and public health administration.

- This book gives an excellent elementary picture of all the bodily systems.
- Provides accurate information on causes, symptoms, methods of transmission, treatments, etc., of social diseases.
- Particularly valuable as basic textbook, athletes' handbook, guide for extra-curricular studies of health, and as refresher on brand new methods of community hygiene.

SPORTS FOR THE HANDICAPPED

Second Edition

By George T. Stafford

Wartime experience as consultant to armed forces reconditioning and rehabilitation programs has led the author to revise the entire text—in order to treat today's broader opportunities for aiding the handicapped. Towards this end, vital new material has been added on psychoneuroses, spinal cord injuries, blindness, and deafness.

- Psychological impacts of specific defects carefully explained.
- Two-thirds of the text devoted to discussion of defects most often encountered.
- Lavishly documented, soundly organized—designed specifically for teaching.
- New illustrations showing armed forces' treatment for various handicaps.

PRENTICE-HALL, INC.

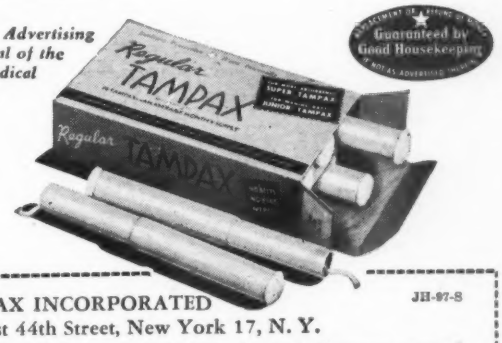
70 Fifth Avenue New York 11

Hundreds of Teachers now recommend Tampax

Tampax is recommended in Home Economics and Physical Education courses in hundreds of schools and colleges. As you no doubt know, Tampax provides monthly sanitary protection without belts, pins and external pads. No odor, chafing or embarrassing disposal problem. May be worn in tub or shower, also in swimming . . . You can readily understand why a great many active girls are very much interested in Tampax. So why not recommend it to *your* students?

For class work or individual instruction, an excellent manual of menstruation is available to you *free*. As implied by the title "How Times Have Changed," this is a *modern* manual. It is based on today's knowledge of the purpose, function and care of menstruation. It is well illustrated and supplemented by medical reports and bibliographies. Also offered free are individual booklets for students. Please read coupon below and state requirements.

Accepted for Advertising by the Journal of the American Medical Association.



TAMPAX INCORPORATED JH-97-8
155 East 44th Street, New York 17, N. Y.

Please send the free material checked. ☐ Tampax manual for teachers "How Times Have Changed." ☐ Sample box of Tampax containing Regular, Junior, Super absorbencies. ☐ Booklets for students "Coming of Age." No. of students in my classes.....

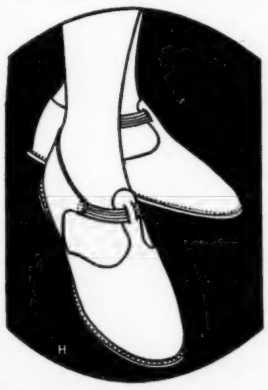
PANZER COLLEGE
OF PHYSICAL EDUCATION AND HYGIENE

A four-year curriculum for the preparation of teachers of physical education, health, and recreation leading to the degree of Bachelor of Science in Education. Accelerated program of three terms a year provides for the completion of four-year course in three years and three summers. The college is accredited and co-educational.

For catalog, address Registrar

PANZER COLLEGE, EAST ORANGE, N. J.



REAL DOLLAR VALUE

Activities in "HOLLYWOOD" LEATHER SANDALS (as pictured) are endless—at school—at home—at play. For **DANCE** routine, nimble as a kitten—For **GYM,** adds pep to your feet—For **ACROBATICS,** soft as a rug—For **TENNIS** or **PING-PONG,** quick and frisky—For **BEDROOM** and **LOUNGE,** softly rests tired feet—For **HIKING,** steps up your energy—For **BEACH-WEAR,** easy loafing—For **WEEKENDS** or **TRAVEL,** dramatically smart and exciting, for there are many colors from which to choose.

Exercise in them beautifies and strengthens your feet. Send shoe-sizes or foot-outlines for prompt delivery for single orders or group orders. Send 75c per pair, plus postage; no handling charges. Guaranteed. Choose: BEIGE, BROWN, BLACK, PEARL, WHITE, RED, GREEN, or BLUE.

FREE OF CHARGE

Handsome, fool-proof automats for the sale of individual bars of fine toilet soap and vulcanized fibre combs at

ONE CENT EACH

This is an absolute hygienic necessity in the dressing room adjacent to the swimming pool or shower.

For 20 years continuously in every school of the Detroit Board of Education, every facility of the Detroit Parks and Recreation Department, Y.M.C.A.'s and public outdoor swimming pools, and most Universities, High Schools and Y.M.C.A.'s throughout the country.

A trial will convince you that these machines serve a long felt want.

BOSTON UNIVERSITY COLLEGE OF PHYSICAL EDUCATION FOR WOMEN, SARGENT

Founded 1881

Academic degree of BACHELOR OF SCIENCE IN PHYSICAL EDUCATION is granted on completion of four-year course in the theory and practice of Physical Education. Five months' instruction at Camp, Peterborough, New Hampshire, in September and June. A major course in physical education with dance, health, recreation or sports specialization. A.M.A. approved physical therapy may be chosen at the end of two years.

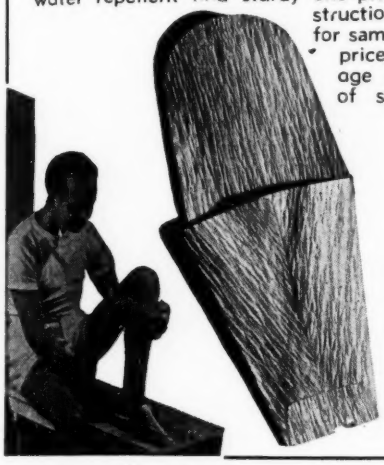
SANI-TREADS

The Original Paper Bath Slippers

Provide Inexpensive FOOT PROTECTION

Encourage foot health . . . **retard the spread of "athlete's foot"** . . . focus students' attention on the vital importance of sanitation! Instructors are finding a popular solution by making SANI-TREADS available in locker rooms, pools and showers.

Always a fresh pair, then thrown away. Surprisingly comfortable creped texture . . . water repellent and sturdy one-piece construction. Send for samples and prices; state age - range of students.



SANI-TREAD CO., Inc.
1730 Elmwood Ave.
Buffalo 7, N. Y.

"Atlantis"

Style 267

Another National model combining smartness with practicability. The "Atlantis" is a one-piece suit, full cut with new popular pleated easy sleeves, complete with bloomer. Sport collar, attached belt and buckle. Created for fun-charged gaming or serious calisthenics.

Spring and Fall orders Accepted Now.

Send for illustrated folder showing other interesting gym suit styles.

National Sports Equipment Co.

Fond du Lac, Wis.

BOUVÉ-BOSTON

SCHOOL OF PHYSICAL EDUCATION

(In affiliation with Tufts College)

★ For young women with college entrance requirements, a four-year program in physical education or physical therapy leading to a B.S. in Education. Physical therapy course approved by American Medical Association.

★ June Camp on Cape Cod emphasizes sports instruction—sailing, riding, swimming, tennis, archery, campcraft, canoeing. Skiing stressed in winter sports session. Desirable residences. Graduates in constant demand.

For catalogue, address Director of Admissions

109 South Huntington Ave., Boston 30, Massachusetts

RECOMMENDED BY DOCTORS!

"SWIM-AID"!

THE NEW NOSE CLIP!

The most unusual protection for swimmers ever devised! Light - sanitary - effective it teaches correct swimming form as well as protecting you from water entering the nose. At your local Drug, Sporting Goods or Dep't Store or write to:

STUDIED AND COMMENDED PARENTS' MAGAZINE CONSUMER SERVICE BUREAU

NATIONAL ASSOCIATION NEWS

Send your membership renewal to 1201 16th St., N.W., Washington 6, D. C.

Rates effective October 1, 1947

Professional Membership (including the Journal and the Research Quarterly)	$ 10.00
Membership (including Journal)	3.50
Student Membership (including Journal)	1.50
Research Quarterly Subscription	3.00
Student Professional (including the Journal and the Research Quarterly)	3.00
Life—One installment	160.00
10 installments to $20.00 each	200.00

Student memberships must be endorsed by a member of the faculty who is a member of the Association.

Have you changed your address recently? Send both the old and new addresses to the Membership Secretary as soon as possible.

Physical Education on Agenda of International Conference

THE Secretary of State announced on July 10 that the President had approved the composition of the United States delegation to the Tenth International Conference on Public Education which was held at Geneva, Switzerland, beginning on July 14, 1947. The delegation was as follows: Galen Jones, Director, Division of Secondary Education, United States Office of Education, Federal Security Agency, chairman; and Howard E. Wilson, Assistant Director, Division of Intercourse and Education, Carnegie Endowment for International Peace, Washington, D. C., delegate.

Sponsored by the United Nations Educational, Scientific and Cultural Organization (UNESCO) and the International Bureau of Education (IBE), the Tenth International Conference on Public Education was essentially technical in character. The purpose of the meeting was to afford an opportunity for an exchange of information on the recent developments of educational movements in the various countries and to make possible the discussion, on an international plane, of a certain number of educational problems which are of current interest and which have formed the subject of inquiries or study on the part of UNESCO and the IBE.

The agenda of the conference included discussion of the following points: (1) reports from the Ministers of Education on educational movements during the school year 1946-47, (2) gratuity of school supplies, (3) physical education in secondary schools, and (4) a teachers' charter.

The AAHPER cooperated with the chairman, Dr. Jones, in the preparation of the presentation made for the United States on physical education in the secondary schools.

Special Bulletin on Camping

"CAMPING and Outdoor Education" is the theme of the May, 1947, *Bulletin* of the National Association of Secondary School Principals. This special issue, planned by Dr. L. B. Sharp, the director of National Camp of Life Camps, Inc., includes 18 relevant articles by prominent educators.

The lead article, "The Need for Outdoor Education Today," was written by S. D. Shankland, former executive secretary of the American Association of School Administrators, shortly before his recent death. Historical backgrounds of camping, basic consideration in outdoor camping and education, policies and procedures for operating community school camps, and issues ahead are among the topics included. The community school camping program of the state of Michigan is described in some detail. Copies may be secured for $1.00 each from the National Association of Secondary School Principals, 1201 Sixteenth Street, N. W., Washington 6, D. C.

1949 Convention Dates

THE annual convention in 1949 will be held in Boston the week of April 18-23 with the Hotel Statler as the headquarters. Four cities are now bidding for the 1950 convention which is scheduled, according to the rotation plan, to be held in the Southern District.

Women and the Olympic Games

THE following Report of the Olympic Study Committee of the National Section on Women's Athletics, a section of the AAHPER, was adopted by the Legislative Board of NSWA in Seattle last April. It was approved also by the Board of Directors of the AAHPER last July by a mail ballot.

"The committee believes that NSWA should suggest certain standards for competition of women in the Olympic Games rather than to endorse or condemn such competition.

"In view of the fact that the Olympic Games will be revived in the summer of 1948, the National Section on Women's Athletics suggests the following standards for competition:

1. The participants have a doctor's certificate of approval for competition in the Olympics.
2. The participants be at least 16 years of age.
3. The participants be coached by women trained in physical education from the time the preliminary preparation begins, through the competition, and, where this is impossible, that the participants be under the direct supervision of trained women physical educators.
4. The participants be adequately housed en route and at the Olympics in areas entirely separate from the men.
5. The health of the individual be considered of paramount importance at all times.

"It is further recommended that:

1. The Olympic Games Committee seek the advice of leaders in the physical education profession in regard to policies concerning women in the Olympics.
2. Publicity be directed toward achievement in the sport rather than exploitation of the individual."

The personnel of the Olympic Study Committee of NSWA was Elizabeth Beall, Wellesley College, Wellesley, Massachusetts, chairman; Martha Gable, Public Schools, Philadelphia; and Elsa Schneider, State Department of Public Instruction, Springfield, Illinois.

National Office Visitors

THE following individuals visited the headquarters office during the summer: Mayhew Derryberry, Milo F. Christiansen, Thomas C. Ferguson, George W. Ayars, Mayola S. Center, Harlan G. Metcalf, James A. Morrison, C. A. Koff, Eli Ellis, Allen M. Powers, Monya Pritchard, Edward L. Carlson, Clyde E. Howard, Frank T. Marino, C. T. Chang (China), Joseph H. Krupa, Carin H. Degermark, M. Cox, Louise Davis (England), Elizabeth W. Robinson, Ruth Mumford Smith, Dorothy I. Vry,

AAHPER Founder Dies

William Gilbert Anderson, director emeritus, Payne Whitney Gymnasium, Yale University, and founder of the American Association for Health, Physical Education, and Recreation died July 7, at the age of eighty-six years. Dr. Anderson served as instructor in physical education (1883-92) at Adelphi Academy in Brooklyn, and at Yale University as professor of physical education and director of the gymnasium (1892-1932).

In 1885 Dr. Anderson called the first meeting of the American Association for the Advancement of Physical Education which was the forerunner of our American Association for Health, Physical Education, and Recreation. When he was awarded the Luther Halsey Gulick Award for Distinguished Service in Physical Education in 1945 he was described as a "teacher of countless leaders, and a living example of the Greek concept of symmetry of body and saneness of mind." It is indeed true that "His whole life will inspire generations to come."

Briefs

THE 448-page report entitled "A Program for National Security," may be secured from the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. for 75c. This publication dated May 29, 1947, is the report of the President's Advisory Commission on Universal Training.

The 1949 Yearbook of the American Association of School Administrators will be devoted to the general field of serving the modern school program through building design, equipment, and the use of newly developed types of instructional aids. The chairman of the commission is Superintendent Warren T. White of Dallas, Texas.

Mary-Ethel Ball, formerly associate professor of women's physical education, has been appointed dean of women at the University of Colorado. Before her appointment to the physical education staff in 1924 she taught in the Boulder public schools.

Vernon E. Hungate has replaced Dr. Rudolph L. Fredstrom as supervisor of the School Health Project in the Nebraska State Department of Public Instruction. Dr. Fredstrom is now dean of men and head of the department of education at Nebraska Wesleyan University in Lincoln.

William K. Streit, well known director of health and physical education in Cincinnati, was married last spring to Linda E. Schulte of Harrodsburg, Kentucky.

The International Olympic Committee has selected Helsinki, Finland, as the site of the summer Olympic games in 1952. Olso, Norway, was selected as the site of the winter Olympics in 1952. The dates of the 1948 Olympics are July 29-August 14 in London.

South Carolina became the forty-fourth state to be accepted for membership in the National Federation of State High School Athletic Associations at its annual meeting held last January in St. Petersburg, Florida.

Glenn E. Snow, Dixie Junior College, St. George, Utah, was elected president of the National Education Association, at the annual meeting of the NEA Representative Assembly in Cincinnati last July.

Dr. George Marshall Lyon, Huntington, West Virginia, has been added to the staff of the Veterans Administration Department of Medicine and Surgery in Washington, D. C. Dr. Lyon is a member of the Joint Committee on Health Problems in Education of the NEA and AMA for the years 1940-50. He will develop laboratories for the use of radioactive isotopes in the treatment of veteran patients in VA's 123 hospitals.

The 1947 Yearbook of the Eastern District Association is now ready for distribution. Individual copies may be secured for $1.00 postpaid from Dr. Carl A. Troester, Jr., Syracuse University, Syracuse, N. Y. Dr. Troester was chairman of the Yearbook Committee.

Dates to Remember

September 2-6: American Congress of Physical Medicine, Hotel Radisson, Minneapolis, Minnesota.

October 6-10: American Public Health Association, 75th annual meeting, Atlantic City, New Jersey.

October 13-17: American Dental Association, annual meeting, Boston, Massachusetts.

October 13-17: 29th National Recreation Congress, Hotel New Yorker, New York City.

October 30-31: Maine State Association, Lewiston.

February 21-26: American Association of School Administrators, annual meeting, Atlantic City, New Jersey.

April 5-8: Eastern District Association, Baltimore Hotel, Baltimore, Maryland.

April 19-23: 53rd Annual Convention of the AAHPER, Kansas City, Missouri. Watch for details.

The dates of other district association conventions are not known but are scheduled next spring in the following cities: Central—Denver, Midwest—Indianapolis, Southern—Birmingham, and Southwest—Salt Lake City.

Recreation and Juvenile Delinquency

THE Recreation Division, Council of Social Agencies, 1101 M Street, N. W., Washington 5, D. C., released last March through its secretary, Jack Houlihan, the following commendable statement of principles on the relationship of recreation to the prevention of so-called juvenile delinquency:

"In principle, we in the broad field of recreation believe in the following relationship between recreation and the prevention of so-called juvenile delinquency:

"Recreation fulfills a fundamental human need. It is only effective when operated to satisfy this fundamental need rather than to prevent an undesirable condition.

"Particularly in childhood, recreation—or play, as it is more commonly called at this age—is the chief activity and takes definite forms according to the age and development of the child. Through wholesome play, children learn skills in the use of their hands and minds, develop their bodies, learn to live and play together, and satisfy their needs for companionship and for service to others.

"Most juvenile delinquents are normal children whose lives lack something of the elements of a good life—happy family relationships, good companions, adequate housing, wholesome and safe places to play, proper food, medical care, satisfactory adjustment in school, and influence of the church. Consideration of recreation as a preventive must be in perspective with all of these potent influences in children's lives.

"Recreation accepts its share of the responsibility but all forces of the community, cooperating as a whole, must accept the obligation for development of wholesome living for all members of the community."

Workshop Recommendations

(Continued from Page 432)

schools, colleges and universities.

h. The AAHPER should give its support to the development of community rehabilitation centers.

i. Research in physical reconditioning activities and programs should be encouraged in cooperation with all medical and scientific groups.

j. The Committee on Implication of Reconditioning for Physical Education should be requested to continue its study of physical reconditioning problems. (To be publicized.)

IV. Recreation Division

(*Chairman:* Dorothea Lensch)

1. Means of Upgrading Professional Education of Recreational Personnel

This can be done by *recognizing* and *acting* on the fact that:

a. The *need* is for *professionally* trained personnel. The term "professionally trained personnel" means those individuals trained in organized curricula taught in accredited institutions of higher learning.

b. Recreation is important enough to justify a professional curriculum which has identity and which includes sufficient courses to *at least* qualify as a minor field of study. (Adopted by the Representative Assembly.)

c. There is great need for standardizing the amount and type of experience in the basic areas which are to be included in the professional curriculum. The basic areas to be considered are (1) social science; (2) psychology; (3) English, literature, and speech; (4) natural sciences; (5) fine arts; (6) recreational administration, theory and practice; and (7) skills in recreational leadership and activity. (To be publicized.)

d. There is a vital need for more complete job analyses in recreation, particularly on the local level so that a better basis for setting up *functional* training programs may be established. (Adopted by the Representative Assembly.)

2. School and Community Recreation Relationships

It is recommended that:

a. In order to meet the total recreation needs, school facilities be made available for community use, and other community recreational facilities be made available for school use.

b. As professional people we take the initiative in providing guides for the technicians to use in the planning and design of facilities.

c. School administrators be urged to use the guides, established by the recreation profession in the planning, design, and construction of school properties for school and community recreational use.

d. In certain rural areas consideration be given to the furthering of the county organization as a recreational unit.

e. All possible effort be expended so that sound recreation enabling legislation will be enacted in all states.

f. In all communities further analysis of recreation administration be made for the purpose of extending and coordinating all community recreation services.

g. All communities direct their efforts toward securing financing of the recreation program on a tax-supported basis and exhaust the possibilities in seeking other sources of revenue. (Adopted by the Representative Assembly.)

3. Specialized Program Areas in Recreation

The problems of recreation for all age levels, for the unemployed, for the delinquent, for the handicapped, for the convalescent, and for mixed races or color were briefly discussed. Also the broad area of weekend recreation, family recreation, church recreation, industrial recreation, recreation in rural areas, recreation in housing projects, and community recreation for service men were discussed.

a. The solution may be attained more effectively through a positive approach: (1) recreation is a logical expectancy of every person and every community; (2) recreation is a way of life, an end in itself; and (3) persons in special groups should be thought of as individuals.

b. The solution may be attained more effectively through sound planning for the total recreation program, the training of recreation leaders and the development of comprehensive recreation facilities.

c. The solution may be attained more effectively through leaders alert to the necessity for correlating community resources—leadership, facilities, finances, public and private agencies, and civic groups. (To be publicized.)

d. The solution may be attained more effectively through planning over a period of time, making leaders alert to the problems and programs in specialized areas. (Adopted by the Representative Assembly.)

4. Relationship of Public Recreation Camping, School Camping, and Private Camping

Due to the great interest currently evidenced in camping throughout the nation, particularly in the field of camping education including the community school camp, and since people throughout the nation look to the AAHPER for leadership and counsel on such problems, it is most timely that a statement of guiding principles and recommendations be made available for those interested in this area.

Therefore the following recommendations which are based upon pertinent group discussion, analysis, and experiences reviewed in workshop sessions are submitted:

a. *Purposes of camping.*—It is fundamental that the four major purposes of education, as defined by the Educational Policies Commission and including the objectives: (1) self-realization, (2) human relationship, (3) economic efficiency, and (4) civic responsibility, be utilized in formulation of the specific purposes of camping.

b. *Cooperative planning.*—Representatives of the several types of camping experience should participate in the plans for the community school camp. Plans should reflect local community and parental interests and needs and should mature slowly enough to assure the stability of the program.

c. *Importance of leadership.*—The education of leaders in general education, including therein health education, recreation, physical education, and camping, is essential to the success of the camping education movement. Trained and experienced leaders are necessary in the establishment of the community school camp.

d. *Curriculum development.*—Basic human needs as well as specific local needs should be considered in curriculum building. Plans for camping education should incorporate these considerations as part of the general pattern of curriculum development for the community centered school.

e. *Articulation and integration.*—The general concept of camping education includes the integration of this phase of life-experience with the major subject areas and units of interest and experience. Close relationships with all phases of the program are assured through planned articulation.

f. *Teacher training.*—It is an increasing responsibility of teacher-education institutions to provide opportunity for apprentice teachers to have twenty-four-hour practicums in real-life situations with pupils as would be provided in a community school camp.

g. *Documentation.*—The relatively meager experiences in

camping education, including the community school camp, and the rapidly mounting interest in this program indicate that adequate documentation of existing experience should be accomplished immediately. Such documentation should include bulletins, monographs, resource units, curriculum data, physical plant descriptions, photographs, motion pictures, and comprehensive written materials which have been carefully selected, and edited for general use.

h. *National camping study.*—A national study or survey should be made of the outstanding camp programs such as private camping, school camping, agency camping, and recreation camping so as to place in reference style programs which are now excellent but fugitive or fragmentary experiences. This examination or review of best practice in camping will provide an invaluable basis for a nation-wide development.

i. *Publications and camping education.*—A carefully planned series of releases on the concept of the community-centered school and the community school camp should be arranged for inclusion in various periodicals, bulletins, and yearbooks of the departments of the NEA. Special attention should be given to the forthcoming publication *Education for All American Children* because of its emphasis on elementary education and because of the current trend toward school camps in the upper level of the elementary school.

j. *Pilot programs.*—Experience in camping education shows the value of the state-level approach to the problem. State departments of education should be encouraged to sponsor local pilot programs in camping education. Individual or foundation support of experimental programs and living memorial projects should precede state legislation for more extended services. Municipal and county governments as well as district, city, and county school systems should cooperate with lay citizens' advisory groups in developing the total program. Federal, state, and local agencies of government should be associated with the camping program so as to make available suitable sites, possible support for capital investments, and an adequate pattern of enabling legislation. (To be publicized.)

k. In view of the above considerations, it is recommended that the AAHPER indicate by resolution that camping education should be an integral part of the school and community program and that educators and community administrators be encouraged to initiate plans for the establishment of community-school camps throughout the nation in the interests of programs of positive worth for our American youth. (Adopted by the Representative Assembly.) «»

Suggested Health Platform

(Continued from Page 436)

health so that they may teach effectively and contribute to a well integrated curriculum.

11. Community health education is the responsibility not only of the health department, but also of the schools, voluntary agencies, and other groups such as agriculture, welfare, and industry.

12. A major part of this program should be devoted to helping the people of a community organize in order to find and solve their own health problems in accordance with democratic principles.

13. The community health education program should provide persons of all ages with accepted scientific facts adapted to their needs, interests, and educational levels.

14. There should be continuous evaluation of all phases of the total health education program, including appraisal of the adequacy of the program, and the effectiveness of the methods and materials used.

15. There should be a thorough analysis of existing health education tools and materials, followed by coordinated planning for their production, use, and evaluation on the part of universities, health and education departments, voluntary agencies, and commercial groups. «»

Cardinal Athletic Principles

(Continued from Page 435)

10. Engender respect for the rules and policies under which the school conducts it program.

Minimum Eligibility Requirements*

It is recommended (not required) that state associations use eligibility rules at least as restrictive as those listed here.

A student is ineligible on the following bases:

1. *20-Year Rule:* He has reached his twentieth birthday.

2. *8-Semester Rule:* He has attended a four-year high school eight semesters, or a senior high school six semesters, or has graduated. (Attendance of 15 days of any semester shall be regarded as a "semester.")

3. *Scholarship Rule and Consecutive Semester Attendance Rule:* (a) He has failed to do passing work in at least fifteen periods (three full-credit subjects) per week, (b) or failed to pass at the end of the immediately preceding semester, in fifteen periods (three full-credit subjects). The record at the end of the semester shall be final and scholastic deficiencies may not be made up in any manner.

4. *Amateur Rule:* He has used his athletic skill for personal gain, or has played on a team on which one or more players received money for their services. Should he lose his amateur standing, he may be reinstated by the state executive body after the lapse of one complete year, provided he has not persisted in breaking the amateur rule.

5. *Independent Team Participation Rule:* He has, after becoming a member of a high school squad, taken part in an independent contest where admission is charged.

6. *Transfer Rule:* He transfers from one school to another without a corresponding change in his parents' residence. (Eligibility may be restored after at least one semester.)

7. *Recruiting Rule:* He has transferred from one school to another for athletic purposes because of undue influence by anyone connected with the school.

8. *Enrollment Rule:* He enrolled later than the beginning of the eleventh school day of the semester.

9. *Athletic Board Rule:* He accepts from any source a sweater, jersey, or any other award exceeding one dollar in value other than those usually given, such as medals, trophies, fobs, letters, and other athletic insignia.

10. *Grade Rule:* He has not been promoted to the ninth grade.

* National Federation of State High School Athletic Associations. *Handbook*, pp. 12-13.

11. *Physician's Certificate Rule:* He has not presented during the year, a physician's certificate that he is physically fit for athletic competition.

A school shall not:

1. *Coaches Rule:* Permit coaching by anyone who is not a certified teacher regularly employed by the board of education and whose entire salary is paid by that body; or who has fewer than three regular periods of classes, gymnasium, or study-hall duty per day.**

2. *Sanction Rule:* Enter any meet or tournament involving more than two schools, or any interstate game involving a round trip of more than 600 miles, unless it has been sanctioned by the state high school association and if more than one state is involved, by the National Federation.***

3. *Officials' Registration Rule:* Use any paid athletic official who is not registered with his home high school athletic association and is not qualified according to the standards of such state association.

** The National Federation Committee is considering a statement to the effect that coaching should preferably be done by physical education teachers.

*** The National Federation Committee is also considering seasonal limitation of games.

Constitution and By-Laws

(Continued from Page 439)

meeting by a two-thirds vote of the members present. An Organization or Section may be expelled for violation of the Constitution and By-Laws of the American Association for Health, Physical Education, and Recreation.

Section 8.—Each Organization or Section shall elect one representative to the Representative Assembly at the time of its regular annual meeting. The representative must be a member of the National Association. Officers and representatives of the Sections shall be elected only by those persons present who are members of the National Association.

Article VIII. Conventions

Section 1.—A national convention shall be held annually.

Section 2.—The national convention, except for the selection of the convention city, shall be conducted by a Convention Committee composed of the President of the National Association (chairman), the President-Elect of the National Association, the Past President of the National Association, the Executive Secretary of the National Association (secretary), the President of the Host District Association, the Secretary of the Host District Association, the President of the Host State Association, the State Director of the Host State, the Convention Manager. The President of the National Association shall serve as chairman of the Convention Committee.

Section 3.—The convention city shall be selected at least two years in advance by vote of the Board of Directors, and endorsed by the Executive Committee of the District in which the meeting is to be held. This list must be accompanied by a written invitation from the accredited representative of the public schools of each of the cities proposed. The convention city shall be assigned to each of the several districts from time to time as financial and other conditions warrant.

Section 4.—A district convention shall be considered as a part of the national convention when the National Association convenes in a city located within the boundaries of that District.

Section 5.—The National Association and the District Association shall share equally in whatever net receipts or deficits are acquired by the national convention providing Section 2 of this article be not violated.

Section 6.—Members of the National Education Association may attend all national and district conventions of the American Association for Health, Physical Education, and Recreation upon payment of the convention fee. Such persons may not participate in the affairs of nor hold office in the Association unless they be members of the American Association for Health, Physical Education, and Recreation.

Article IX. Publications

Section 1.—The official magazine shall be called the *Journal of Health and Physical Education.* It shall be published by the National Association monthly, except in July and August, and be sent without charge to all members and patrons.

Section 2.—The National Association shall publish a *Research Quarterly* in March, May, October, and December of each year, and such other materials as may be authorized by the Board of Directors. The *Research Quarterly* and other materials provided for in this Section shall be sent to professional, life, and honorary members and patrons without additional charge.

Article X. Honor Awards

Section 1.—The National Association may honor individuals for meritorious service in health education, physical education, recreation, or in allied fields of science and education by electing such persons as "Fellow of the American Association for Health, Physical Education, and Recreation" or by conferring such other awards as may be approved by the Board of Directors.

Article XI. Investment of Surplus Funds

Section 1.—The Board of Directors shall decide at its regular annual meeting the amount of money required to conduct the business of the Association for the following year.

Section 2.—The fiscal year shall extend from June 1 to May 31 inclusive.

Section 3.—The Board of Directors shall invest such sums as may accumulate as part of a Permanent Fund.

Article XII. Rules of Order

Section 1.—Questions of procedure shall be decided according to Robert's Rules of Order.

Article XIII. Amendments

Section 1.—These By-Laws may be changed at any meeting of the Representative Assembly or by mail vote. An affirmative vote equivalent to two-thirds of the total membership of the Representative Assembly shall be necessary for change. No mail vote shall be valid beyond thirty days after official notification. Amendments shall be published not later than the third issue of the *Journal* after being passed.

Sample State Law

(Continued from Page 434)

The board of education may expend funds in the support of intramural and interscholastic athletics since athletics are a part of the program of health and physical education.

The board of education shall provide sufficient moneys in its budget for the proper support of the division of health and physical education and its services.

Section 11

Supervision.—School authorities shall employ professionally trained, qualified, and competent state and local directors and supervisors of health and physical education to assist schools in the administration, guidance, and development of programs.

Section 12

Duties of the State Director or Supervisor of Health

and Physical Education.—The state director or supervisor shall exercise general direction and supervision of health education and physical education, including athletics, and recreation programs in the schools of the state; he shall prepare and provide proper courses of study, manuals, and other teacher aids; he shall assist local school authorities in the improvement of programs; he shall assist teacher-training institutions in the development of adequate programs of professional education of teachers; he shall cooperate with all official and nonofficial state agencies; and he shall perform such other services as may be required of him by the state board of education.

SECTION 13

Date of Effect.—This Act shall become effective one year from date of its passage.

"The Wrong People"

(Continued from Page 440)

Thursday, November 13, "Supporting Adequate Education"; Friday, November 14, "Enriching Home and Community Life"; and Saturday, November 15, "Promoting Health and Safety."

The topic, "Promoting Health and Safety," is flexible and can be interpreted to include any phase of a total school health education, physical education, and recreation program. The schedule for the week can be adapted locally and the topic for the field can be included on any day of the week. Most of the methods of public interpretation can be used on Saturday, the designated day for the topic.

Here is a channel to (1) increase public understanding and appreciation of the program; (2) encourage every parent to visit his child's program at least once during the year; (3) secure the participation of the people in improving the program; (4) give pupils an appreciation of what the program is doing for them; (5) encourage civic groups to give consideration to health education, physical education, and recreation; and (6) highlight the all-year program of interpretation.

The Association and the profession it represents are indebted to the Committee for American Education Week for their cooperation in giving recognition to health and safety as one of the daily topics for the third consecutive year. It is especially grateful to Dr. Agnes Samuelson of the NEA and the members of her staff who are in charge of the organizational and promotional efforts for the entire project for the preparation of most of the materials being distributed widely to city and county superintendents and local education associations.

A packet of special materials to assist local committees in the development of AEW observances is being distributed by the NEA for 50 cents. These materials, including a manual, posters, leaflets, stickers, radio scripts and spot announcements, movie trailer, mats for newspaper advertisements, plays, packets, and other items, provide practical assistance for a program of action and suggestions for each daily topic. The topic of health, connoting a wider implication than is commonly accredited to it, is incorporated in practically all of the materials.

Materials applying specifically to health, physical education, and recreation were prepared for the occasion but are suitable for use during the entire school year. These are enumerated below for easy reference:

1. *School Health Resources—A Guide for Focusing Efforts in Small Communities Toward Better Health Education, Physical Education, and Recreation.* Prepared by the AAHPER. 8pp. Price 20c for a packet of ten from the NEA, or 5c per single copy from the AAHPER. To be published in the October, 1947, issue of the N.E.A. Journal.

2. *As The Twig Is Bent,* a quarter-hour dramatic radio script dealing with health, physical education, and recreation problems in secondary schools and education's relation thereto. Prepared by Isabel Chappell for the AAHPER. 15c per single copy.

3. *Health Around the Clock,* a playlet for primary grades developed by teachers and pupils of the Kentucky Elementary School of Cleveland, Ohio, under the direction of Miss Edwina Jones, supervisor of physical education in the Cleveland public schools, and through the cooperation of the AAHPER. 15pp. Price 15c per single copy.

4. *The Schools Are Yours,* Personal Growth Leaflet Number 58; brief statements and general questions for discussion on the daily topics. 16pp. 1c each in quantities of 25 or more, cash with order. Refer to pages 11 and 16.

Other materials include:

Judgment Day, a recording relating to the daily topics for use by local radio stations; mat of drawing illustrating all daily topics; and mats of display newspaper advertisements on all daily topics.

Through the courtesy of the National Education Association, 125 complimentary packets of materials have been made available for distribution to some of our key groups of officers. Approximately 20,000 additional packets will be distributed to other school and lay personnel throughout the country. Through its own resources the Association will have available for distribution, 20,000 copies of the brochure *School Health Resources.*

We have this unusual opportunity to strike hard upon the anvil of public opinion. It is hoped that everyone in any position of leadership will work with superintendents and principals and their designated committees and add his influence and efforts in implementing especially within his local community the suggestive program that has been planned.

Every teacher, supervisor, and administrator should plan to have the people in their communities visit the schools, see them in action, find out first hand about the good work they are doing, and learn about the inadequacies which may be corrected by proper community action and support. In doing so, we will be talking to the right people.
